

The US Green Building Council is committed to transforming how buildings are designed, constructed and operated through LEED. LEED is the most widely used green building rating system in the world, providing a framework for healthy, highly efficient, and cost-saving green buildings, and offering a globally recognised symbol of sustainability achievement through the LEED certification. Our products can help your project achieve a LEED certification.

LEED v4.1

Category	Assessment issue	Credit	Contribution of Autex Acoustics	Evidence
Materials and resources	Environmental Product Declarations	Option 1. Environmental Product Declaration (EPD)	With Environmental Product Declarations (EPDs) that are product-specific, ISO 14025 and EN 15804 compliant, and contain information on the product's life cycle and environmental impacts. EPDs have been verified and critically reviewed by an external party, providing assurance that the life cycle information shown are accurate.	Environmental Product Declaration (EPD)
	Sourcing of Raw Materials	Responsible Sourcing of Raw Materials	Made of 100% PET, a portion of which is post-consumer recycled PET (from PET bottle flakes).	Product Datasheet stating Recycled Content
	Material Ingredients	Option 1. Material Ingredient Reporting	All ingredients are disclosed down to 100 ppm and published on Declare labels and Health Product Declarations (HPD) to help make fully informed choices when deciding which products to use.	Declare Label
		Option 2. Material Ingredient Optimization	Declare labels are third-party verified, which gives assurance that the information disclosed is true and accurate.	Declare Label (Third-Party Verified)
Indoor environmental quality	Low-Emitting Materials	VOC emissions evaluation	Low VOC and formaldehyde emissions and will not contribute to poor indoor air quality.	VOC Emissions Report (CDPH Standard Method)
	Interior Lighting	Glare Control	Available in a wide range of colours and reflectance values, providing more flexibility when designing a space to achieve the required Unified Glare Rating (UGR).	Light Reflectance Values (LRVs) – as input for modelling report
	Acoustic Performance	Reverberation Time	Highly sound absorptive products, reducing reverberation time, supporting concentration, and increasing speech intelligibility.	Acoustic Test Report
