

Green Star is Australasia's largest voluntary and truly holistic sustainability rating system for buildings, fitouts and communities. A Green Star certification proves that a project has met best practice sustainable design and build benchmarks set by the Green Building Council. Our products can help your project achieve a Green Star certification.

Green Star buildings

Category	Credit	Criteria	Contribution of Autex Acoustics	Evidence
Responsible	Responsible Finishes	Responsible Products Value	Certified to Global GreenTag GreenRate Level A, achieving a 100% mark for overall sustainability performance, including performance in terms of health and ecotoxicity, environmental impacts, and social responsibility. With Environmental Product Declarations (EPDs) that are product-specific, ISO 14025 and EN 15804 compliant, and contain information on the product's life cycle and environmental impacts. EPDs have been verified and critically reviewed by an external party, providing assurance that the life cycle information shown are accurate.	Global GreenTag GreenRate Level A Certificate Environmental Product Declaration (EPD)
Healthy	Light Quality	Glare from Light Sources	Available in a wide range of colours and reflectance values, providing more flexibility when designing a space to achieve the required Unified Glare Rating (UGR).	Light Reflectance Values (LRVs) – used in determining UGR
	Acoustic Comfort	Reverberation Control	Highly sound absorptive products, reducing reverberation time, supporting concentration, and increasing speech intelligibility.	Acoustic Test Report
	Exposure to Toxins	Actual TVOC and Formaldehyde Levels	Low VOC and formaldehyde emissions and will not contribute to poor indoor air quality.	VOC Emissions Report
	Connection to Nature	Plants and Nature-inspired Design	Available in nature-inspired colours, with the option for customisations to create designs inspired by nature.	Architectural Drawings (with Autex Acoustics products specified)
Positive	Upfront Carbon Emissions	Reducing Upfront Carbon Emissions	With EN 15804 compliant Environmental Product Declarations (EPDs) that contain information on the product's life cycle and environmental impacts, including embodied carbon. The embodied carbon in products have been offset using certified carbon credits.	Environmental Product Declaration (EPD)
Places	Culture, Heritage, and Identity	Community Led Design Response	Come with customisation options to create designs that celebrate culture, heritage, and identity.	Architectural Drawings (with Autex Acoustics products specified)

Green Star - design and as built; interiors

Category	Credit	Criteria	Contribution of Autex Acoustics	Evidence
Indoor Environment Quality	Acoustic Comfort	Reverberation	Highly sound absorptive products, reducing reverberation time, supporting concentration, and increasing speech intelligibility.	Acoustic Test Report
	Lighting Comfort	General Illuminance and Glare Reduction Surface Illuminance	Available in a wide range of colours and reflectance values, providing more flexibility when designing a space to achieve the required Unified Glare Rating (UGR) and illuminance.	Light Reflectance Values (LRVs) – used in determining UGR and surface illuminance
Materials	Sustainable Products	Recycled Content Products	Made of 100% PET, a portion of which is post-consumer recycled PET (from PET bottle flakes).	Product Datasheet stating Recycled Content
		Environmental Product Declarations	With Environmental Product Declarations (EPDs) that are product-specific, ISO 14025 and EN 15804 compliant, and contain information on the product's life cycle and environmental impacts. EPDs have been verified and critically reviewed by an external party, providing assurance that the life cycle information shown are accurate.	Environmental Product Declaration (EPD)
		Third-Party Certification	Certified to Global GreenTag GreenRate Level A, achieving a 100% mark for overall sustainability performance, including performance in terms of health and ecotoxicity, environmental impacts, and social responsibility.	Global GreenTag GreenRate Level A Certificate
Innovation	Innovation	Improving on Green Star benchmarks	May contribute to additional points if there is a higher percentage of sustainable products used in the project.	Global GreenTag GreenRate Level A Certificate
