

Groove™ is a semi-rigid acoustic panel, router cut with a series of precise, angular designs that bend and distort light. Our Groove options can be customised to meet your needs.

### Design

Select from a range of seven patterns.

V1

V2

V3

V4

V5

V6

V7

Custom Groove design available, please speak to your Autex Acoustics® specifications manager for support.

### Angle

Select Groove angle.

12°

30°

Standard

60°

90°

45° Shadow Groove

### Panel colour and thickness

Choose your Groove panel colour and thickness.

Available in full Cube™ colour range (base product colour).

12 mm

24 mm

Available in two Cube thicknesses.

### Groove Duet™ colour (optional)

To create a two-tone effect (Groove Duet™), select your base colour first and then select a top colour.

Available in full Vertiface™ colour range with a velour finish. Smooth finish also available on request.

---

**Specification support**  
— because we care

We help you to specify the most economical material utilisation to keep costs and material usage to a minimum.  
We recommend specifying custom length panels when required to remove the need for a horizontal joins.

---

**Fast delivery times**

Autex Acoustics Groove panels are made in Australia and are made to order specifically for your project. A standard lead time of two - three weeks applies.

---

**Colour options**

To view Groove colour options and finishes please visit: [autexacoustics.com.au/products/groove](http://autexacoustics.com.au/products/groove)  
Groove can be combined with Autex Acoustics Surface Finishes on request. Please speak to your Autex Acoustics specification manager for further information.

---

**Note**

Fully manufactured in-house by Autex Acoustics.  
Standard Groove panel sizes are 2400 mm x 1200 mm, and 2700 mm x 1200 mm.  
Custom length panels available on request - MOQs apply.
