Behringer MS-1 MK II Firmware Update

Version: 1.0.7 (24 Sep 2024)

Improvement:

- Added 'Note Priority' settings in Synth Tribe App
- If using a key to transpose the currently playing sequence, the transpose value won't apply to the next sequence when recalled

Version: 1.0.6 (6 Sep 2024)

Bug Fixes:

- Transpose now follows original implementation for Arp playback
- Portamento now follows original implementation for Arp and Sequencer when using off/auto/on
- Portamento scaling improved to give smoother control and playback
- Portamento start time improved
- Random LFO now clocks from external sync in

Improvement:

- When creating a sequence press and hold a key, then press HOLD to add glide to a step
