# Behringer PROTON Firmware Update

# Version 1.0.3 (2 Jun 2025)

**What's New:**

**Improved Noise Generation**

We've refined the Proton's noise circuitry for enhanced sonic performance. The updated noise generator now delivers greater spectral consistency, improved dynamic response, and reduced unwanted artifacts—giving you smoother textures for everything from percussive hits to evolving soundscapes.

**Additional Improvements:**

Minor performance optimizations for overall stability.

**How to Update:**

Visit https://www.behringer.com/behringer/product?modelCode=0718-AAO and download the latest Synthtribe app to update.
