Behringer GO MIDI HOST Firmware Update

Version 0.0.5 (2 Jun 2025)

What's New:

Bug fix:

Improved compatibility with USB composite devices.

How to Update:

1. Download the latest version of the SynthTribe app from the official Behringer website: https://www.behringer.com/behringer/product?modelCode=0716-AAH

2. To enter firmware update mode:

   • Press and hold the RESET button located next to the POWER USB socket

   • While holding the button, power on the unit

   • Connect your Mac or PC to the USB HOST socket

   • Follow the update instructions provided in the SynthTribe app
