

Behringer PHARA-O MINI Firmware

Version 1.0.28 (24 Jun 2025)

We're pleased to release a firmware update for the PHARA-O MINI, focused on refining performance, improving MIDI compatibility, and enhancing polyphonic playability.

What's New

Pitch Bend Range Reset

- Default pitch bend range has been reset to **±2 semitones**, ensuring a more standard and predictable experience.

Key Priority Default Updated

- Default **Key Priority** is now set to **Last**, improving natural playability during performance.

Enhanced Polyphonic Envelope Handling

- **Increased tolerance time** for note input from MIDI and touch keyboards in **POLY mode**, allowing for more consistent **envelope release** behaviour when playing chords.

Improved MIDI Running Status Compatibility

- Enhanced support for **MIDI 'running status' messages**, particularly for **NOTE ON/OFF** data received via the **MIDI DIN port**.
- Ensures better compatibility with **older MIDI hardware**, as requested by users.

How to Update

Connect your PHARA-O MINI via USB and launch the **Behringer Synthtribe** app to install the latest firmware.
