

Counter Disruption with Kollective

Disruption to global work environments is forcing more employees to work from home, heralding in a new era of business communications — the rise of live video.

Video has the power to drive collaboration, ensuring that day-to-day operations continue as planned.

Build Culture

Connect leadership to the entire organization with transparent communications.

Amplify Engagement

Achieve company vision by enabling teams to have greater purpose, alignment and inclusion.

Boost Productivity

Go to market faster with efficient training that empowers employees to collaborate and share ideas.

Kollective Can Help

Whether preparing for your first live event or scaling video communications to reach a distributed team, Kollective's Enterprise Video Service team is here to assist. We offer:

Pre-Event Preparation

From video message strategy to contingency planning, we walk you through the entire live event process.

Live Event Broadcast

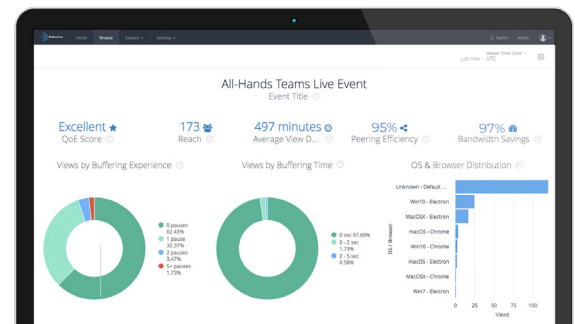

An experienced team will be on-hand to address any issues, giving you peace of mind.

Post-Event Insights

Our team will provide analysis and share key learnings from the event to optimize for future success.

Know What Works

Kollective IQ Analytics with ECDN 11 gives deep insight into the performance of your network, content and employee engagement — even for workers watching from home.

Sign Up for a Free 30-Day Trial

Following a disruption, employees will have new expectations for live video. Prepare your network for the challenge with a free 30-day trial of Kollective's ECDN.
