FEATURES & BENEFITS

- LightningBoil™ Burner:** The center burner features three rings of varying sizes that can be controlled individually at the touch of a button. Activate just the 6-inch ring to slowly melt chocolate or engage all three to quickly boil water for family pasta night.
- Sync Burner:** Evenly heat large cookware, like griddles or Dutch ovens, by synchronizing both left-side burners for up to 3800 watts of combined output.
- Automatic Shut Off:** Each zone's timer automatically shuts off when cooking is done, offering added safety and preventing cookware from burning on the bottom.
- 4 Elements:** Prep more dishes at the same time with five radiant cooking elements that deliver rapid, consistent heat.
- 9 Power Levels:** Simmer a sauce or crank up the heat for a caramelized sear—now that's control.
- Touch Glass Controls:** Touch controls allow for more precision when selecting heat levels, while spills and grease can easily wipe away.
