FEATURES & BENEFITS

- High-Performance Burners with Infrared and Rear Rotisserie:** Two H-shaped stainless steel burners deliver even heat distribution, while infrared and rear ceramic rotisserie burners provide intense, focused heat for steakhouse-style searing and slow-roasted perfection.
- 66,000 BTU Total Heat Output:** Offers exceptional power to handle any grilling style or occasion with ease.
- Ceramic Briquette Heat Control Grids:** Ensure even heat across the cooking surface while minimizing flare-ups for safer, more consistent results.
- 304 Stainless Steel Construction with Double-Wall Hood:** Built to withstand the elements with durable, rust-resistant materials; the double-wall hood retains heat efficiently and protects against external temperature fluctuations.
- Rotisserie Kit with Rear Hook Storage:** Roast restaurant-quality meats at home and store the rotisserie rod neatly with the built-in rear hook for a clutter-free grilling space.
- Integrated Lighting System:** White projector knob lights and interior halogen grill lighting enhance visibility and add a modern touch, making it easy to grill with precision.
- Large Built-In Temperature Gauge:** Easily monitor internal temperatures at a glance for precise, controlled cooking.
- Warming Rack with Hook Storage:** Convenient hook design allows the warming rack to be stored inside the grill when not in use, saving space and keeping the cooking area organized.
- Freestanding Design with Lockable Cart Casters:** Provides mobility and stability without the need for built-in installation.
- Self-Closing Doors and Adjustable Drawer Hinges:** Provide smooth, secure operation and a premium user experience.
