Experience Our

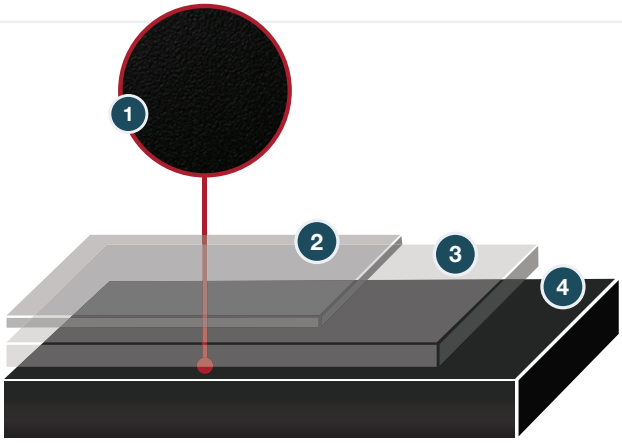

MOST DURABLE

Window & Door Finish

Harvey's advanced laminate has the superior ability to repel scratches, which means that finish-related installation issues are minimized, since there is no need to touch up paint in the field. **With 8X the abrasion performance of paint**, remodelers installing in brick or stucco can feel confident that our laminate finish will retain its pristine appearance.

Laminate is available in an aesthetically pleasing matte black that resists chalking, cracking and fading and is even graffiti cleanable.

MULTI-LAYER CONSTRUCTION

1. **Stipple embossed** gives a **contemporary finish**
2. **Unique PVDF top layer** is easy to clean and is highly resistant to salt air, humidity cycles and pollutants
3. **Middle layer of clear PMMA** protects pigments from UV radiation
4. **Acrylic base layer** utilizes Solar Shield Technology, a heat-reflecting inorganic pigment strategy
