WINDOWS + DOORS

MAJESTY WOOD PRODUCTS GUIDE

MAJESTY WINDOW FEATURES

AT A GLANCE

- ▶ The solid Ponderosa Pine wood components of Majesty products have been specially treated to resist rot, degradation, splitting, warping, and mildew.
- ▶ The extruded aluminum exterior cladding is precision formed to protect the sashes from outdoor conditions, and includes attractive beveling to match the aesthetics of wood windows. The aluminum on the frame provides extra strength.

MAJESTY COMPONENTS

- 1 Majesty weatherseals are designed to perform over a wide range of temperatures and weather conditions. A lightweight polypropylene stiffener additive, which does not absorb water or collect mold, creates an airtight seal that does not distort over time. The seal ensures a consistent barrier from external conditions and allows for smooth window operation. An average of 300 inches of custom designed Foam-Tite® compression bulb seals encase the full perimeter of the sash of Majesty windows – similar to seals you see on dishwashers or refrigerators.
- 2 The rigid non-compression Jamb Liner adds strength, stability and reduces air infiltration, while its special beveled design allows the sash to open and tilt easily.
- 3 An electrostatic paint process adheres paint evenly onto exterior surfaces for an extremely durable finish that resists fading.

CUSTOMIZATION OPTIONS

MAJESTY FINISHES

Majesty Wood windows and patio doors feature a precision molded aluminum exterior that protects wood components from environmental conditions.

An electrostatic paint process adheres color evenly onto the aluminum clad surfaces, ensuring an extremely durable finish that resists fading. Majesty products come in your choice of 5 exterior finishes, at no additional charge.

The interior can be left as warm, unfinished pine to be painted or stained after installation, or professionally prefinished in white for no mess or hassle post-installation.

Interior	Exterior	
		
Prefinished White*	White	Almond
		
Pine	Black	Dark Bronze
		
	Forest Green

CUSTOMIZATION OPTIONS

GRIDS

Both 5/8" and 1" grids in either contoured or flat are available for most products. Grids can also be painted.

See product pages for grid options per window/doors style.

CONFIGURATIONS

Fully customize any grid design. Choose Colonial, Prairie, or other unique styles like Tudor or Gothic.

SASH ORIENTATION

Even sashes are nice, but you can also select Oriel, Cottage, or a custom orientation.

SCREENS

An often overlooked selection in the window buying process, the right screen can make a big difference when it comes to insect protection, durability, and of course, what a view looks like. Engage with homeowners to help them choose the screen options that will enhance their project.

FRAMES

EXTRUDED ALUMINUM

Superior in strength to Roll Form frames, extruded aluminum frames are tough, sturdy and easy to remove and install, with hidden metal corners that won't become brittle over time as exposed plastic corners can.

ROLL FORM

Aluminum Roll Form screens are a lightweight, value option available for certain windows only. Ideal for smaller window openings.

FLEXSCREEN FRAME

This barely visible frame is almost completely hidden by the screen track, and its innovative, flexible construction makes it effortless to remove or install.

Durable:

FlexScreen frames are made from dent and break resistant high performance steel, with a tough powder coating that resists scratching.

MESH

VIEWS

Standard Screen

VIEWS

Upgrade to Virtually Invisible Screens, for a brighter view, 25% better airflow, and maximum protection against small insects.

FIBERGLASS

A popular choice for its durability, fiberglass is flexible and does not crease, dent, or unravel.

Easy to Use:

FlexScreen springs into an opening, making storing, installing and removing the screens easy.

Elegant:

Without a bulky screen frame, FlexScreen disappears into the screen box of the window so there's less to get in way of the view. Plus, since FlexScreen's edges are hidden, there's no need to worry about matching a frame color to the window. Combine with VIEWS mesh for the clearest view.

Screens come in half and full sizes. See product pages for screen options per window/doors style.

SIMULATED DIVIDED LITES (SDL)

For a dramatic and upscale look, choose the SDL grid system which utilizes a pewter in-glass grid with grids applied on both the interior and exterior. Available for most Majesty Wood windows.

GRIDS BETWEEN GLASS (GBG)

Contoured or flat grids are positioned between the glass, allowing for easy cleaning. Available for most Majesty Wood windows.

EXTERIOR APPLIED/ INTERIOR SNAP-INS

Exterior applied grids provide a more defined architectural style on the exterior, with the ease of grids between glass on the inside. Pine interior snap-in grids are also available for Majesty Wood windows.

MAJESTY PICTURE & SHAPES

If you are opening up a room to a spectacular view, consider Majesty picture windows. Perfect for new construction or replacement projects, they are available in ENERGY STAR, obscured, bronze or tempered glazing. Or, for a dramatic design, pair them with Majesty shape windows.

FEATURES

- ENERGY STAR glass packages available
- Solid pine interior with aluminum clad exterior
- OTHER OPTIONS

Grids come in 5/8" and 1" sizes as well as custom configurations

Interior options include warm, unfinished pine or professionally prefinished white (includes 10-year paint warranty)

All Grid Styles

Harvey Majesty Wood Windows can be customized to fit any design aesthetic and performance level, with a lineup that include double hung, casement, awning, picture, shapes, bay, bow, and gliding windows.

MAJESTY GLIDING

RECESSED SASH LOCK

Optimize fresh air and sunlight without compromising space or energy efficiency. The interior sash of a Majesty gliding window horizontally slides by the fixed exterior sash, making them ideal when an outward swinging window cannot be used. Obscured and tempered glazing available.

OPTIONS

MAJESTY BAY & BOW

INTERIOR

EXTERIOR (ALMOND)

Harvey's Majesty bay and bow are beautiful and functional. They can be made from casement, picture, or double hung windows, with the same glass, screen, grid and color options. There are no exposed joints or caulking on the exterior of the unit.

CUSTOM ROOFS

All roof systems are fully framed and sheathed in 1/2" plywood; custom roof height includes flange.

They are available in 16 oz. copper or solid aluminum and are also compatible with several other manufacturers.

*Seat board standard with white aluminum face only, color matched caps finish the outside edge.

ALUMINUM ROOF COLORS

FEATURES

- ENERGY STAR glass packages available
- Solid pine interior with aluminum clad exterior
- Custom manufactured to fit virtually any opening
- Edge banded finish jambs and head and seat boards in oak or maple veneer. Insulated seat board custom made to fit each unit*

PATIO DOOR MAJESTY WOOD GLIDING

Harvey Majesty wood gliding patio doors offer contemporary hardware options, and narrow door stiles save space while delivering a sleek, casual look.

Available in 2, 3 and 4-Lite design options, they glide effortlessly along a continuous fiberglass sill. The heavy-duty weatherstripping ensures the patio door will open without a hitch, regardless of the season.

Sturdy and well crafted, Majesty wood gliding patio doors have two tandem, heavy-duty, end-adjustable rollers for fluid and smooth operation for years to come, and they pair beautifully with Majesty windows.

PATIO DOOR MAJESTY WOOD HINGED

Majesty Hinged Patio Doors' classic hardware and French panel design offer accessible entryways that swing in, inviting in the outdoors, or swing out, extending the space into the outdoors.

Hinged patio doors offer a traditional, elegant style and are available in 1, 2, 3 or 4-Lite panel design options. The integral frame drip edge enhances water protection and a dual seal frame weatherstripping optimizes air and thermal performance.

The contemporary handleset and adjustable hinge system protect against high-traffic wear and tear. The elegant panels have a sturdy 8" bottom rail for added durability.

FEATURES

- ENERGY STAR glass packages available
- Solid pine interior with aluminum clad exterior
- Extruded aluminum screen frame with fiberglass wire included
- 2, 3, and 4 lite design options
- One-piece gray fiberglass sill
