Charging Your Hearing Aids

- Place your hearing aids in the charger with the earbuds or earmolds resting inside the reservoir.
- Your hearing aids will turn off automatically and begin to charge. Standard charger requires external power source (i.e. wall outlet).
- Note: The LEDs corresponding to each hearing aid:
 - Glowing Green = Charging
 - Solid Green = Fully Charged
 - Blinking Red = Fault State. To reset, remove the hearing aids from charger, wait until LED turns off and re-insert aids. If Fault State continues, call your hearing professional.

- Charging occurs with the lid open or closed; hearing aids will be fully charged in under 3 1/2 hours.
- It is safe to store hearing aids in the charger after they are fully charged and any time that you are not wearing them.
- Hearing aids will automatically power on when removed from the charger. Standard charger requires external power source (i.e. wall outlet).
- The desiccant puck provided will be effective for 3–6 months depending on moisture in the hearing aids and humidity. When the desiccant puck fades from blue to white, it should be replaced.
- If you will not be wearing your hearing aids for an extended period of time (i.e. weeks), remove both the plug from the charger and the hearing aids from the charging ports. You will need to manually power off the hearing aids by pressing the user control on each hearing aid for three seconds.

Ask your hearing professional about our pocket-sized Mini Turbo Charger that provides a 3.5-hour charge in just seven minutes.

Power On & Off

- ON** - The hearing aids will power on automatically after removing them from the charger. There is a delay that allows you time to insert your hearing aid into your ear.
- ON** - If the hearing aid is manually powered off, pressing the user control for three seconds will power it on. The delay still exists, to give you time to insert the hearing aid into your ear.
- OFF** - The hearing aids will power off automatically when placed in the charging port. Charging will proceed.
- OFF** - The hearing aids can be powered off manually by pressing the user control for three seconds.

System Care

HEARING AID CARE

Keep your hearing aid clean. Heat, moisture and foreign substances can result in poor performance.

- Use a cleaning brush or soft cloth to clean debris from around the user control, microphone and battery compartment.
- Inspect the receiver, earbud and wax guard regularly.

- Never use water, solvents, cleaning fluids or oil to clean your hearing aid.

CHARGER CARE

Keep your charger clean. Heat, moisture and foreign materials can result in poor performance.

- Use the provided cleaning brush to keep the charging ports and hearing aid microphones clear of debris.
- Do not use water, solvents or cleaning fluids to clean the charging ports.
- Keep lid closed as much as possible to avoid dust and debris buildup.
- Store your charger in a clean and dry location i.e., a dresser or shelf rather than the bathroom or kitchen.

To ensure the longest life of your rechargeable hearing aid batteries:

- Fully charge hearing aid batteries every night.
- Do not expose to excess heat, i.e., do not store on a window sill or in a hot car.

Helpful Hints

- Do not take apart your hearing aids or insert the cleaning tools inside them.
- When not in use, place your hearing aid in the storage container and store:
 - In a dry, safe place
 - Away from direct sunlight and heat to avoid extreme temperatures
 - Where you can easily find them
 - Safely out of reach from children and pets

Hear Clear Receiver Wax Guards

RIC hearing aids integrate disposable Hear Clear earwax protection. The innovative wax guards prevent earwax accumulation in the hearing aid receiver. When you need to replace your wax guards, please follow the instructions below.

1. Insert empty end of the application stick straight into used wax guard in hearing aid.
2. Pull **straight** out (do not twist) on stick to remove used wax guard.

3. Use opposite end of stick to firmly insert clean wax guard straight into hearing aid.
4. Pull **straight** out (do not twist) to remove stick and discard.
