Quality in... quality out

Your professional expertise is critical when selecting the best solution for a patient. Many factors and considerations come into play when determining if a patient is a custom hearing aid candidate, including:

- Audiogram
- Dexterity
- Ear anatomy and history
- Lifestyle

Ultimately, **the patient has come to you** to weigh all considerations—physical, audiological and patient priorities—and recommend a solution that delivers both success and satisfaction.

A superior custom product fitting starts with a high quality ear impression. Making a perfect impression requires proper technique, attention to detail, and repetition.

As the custom hearing aid experts, we know a thing or two about making accurate, precision-tested impressions—and how good impressions can also be used to make earmolds, custom cases, hearing protection solutions and more.

Scan the QR code or go to AudibelPro.com for support materials, how-to videos, and more.

Developed with help from Audibel's most experienced impression takers, these tools share best practice tips perfected from shooting thousands of impressions in our Center for Excellence.

Material Options

Digital SLS Acrylic	• RIC • BTE & Thin Tube • Specialty*	• One color	Most Rigid
			90 Shore
High Strength Silicone 60	• RIC • BTE & Thin Tube • Specialty*	• Swirl (max. 3 colors) • Glitter option	60 Shore
High Strength Silicone 40	• RIC • BTE & Thin Tube • Specialty*	• Swirl (max. 3 colors) • Glitter option	40 Shore
Floatable Silicone	• Swim earplug (SoundGear only)	• Swirl (max. 3 colors)	25 Shore
			Softest

Venting Guide

This guide is applicable for all hearing aid earmolds. Vent size is limited by ear anatomy.

Vent Name	Approximate Size
Pressure Vent	0.8 mm
Small	1.2 mm
Medium	1.8 mm
Large	2.55 mm
Select-A-Vent	3.37 mm
Extra Large	As large as canal allows

Specialty Solutions

HA Listening Test Mold

Digital SLS

A shell or skeleton style earmold with a tubing attachment for listening to ITE/ITC/CIC/RIC style and BTE hearing aids for listen checks.

Stent Mold

Digital SLS

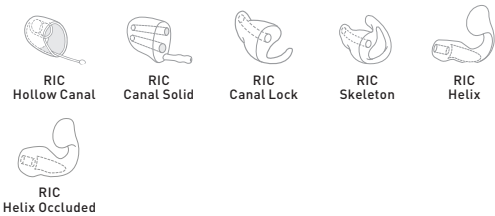

A hollowed shell of canal style earmold to hold the ear canal open.

RIC Solutions

RIC Earmolds

Digital SLS / HS Silicone 60 / HS Silicone 40

Available for both SnapFit 2.0 and SnapFit Receivers

Custom Cased or Absolute Power (AP) Receivers

Digital SLS

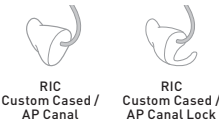

Cable Lengths:
1, 2, 3, 4, 5

Gain:
L, M, P, UP

Receivers:
SnapFit 2.0
(ten-pin connector)

SnapFit
(six-pin connector)

Original
(two-pin connector)

*Only available in clear
Pro tip: When measuring the receiver wire for a Custom Cased or AP receiver, report the number that correlates with the top of the entrance to the ear canal.

Color Options*

Our earmolds come in a variety of color options. Some colors appear differently in certain color families based on material type. **Swirl combinations are also available using up to three colors.**

Digital SLS

HS Silicone 60

HS Silicone 40

Glitter

Floatable**

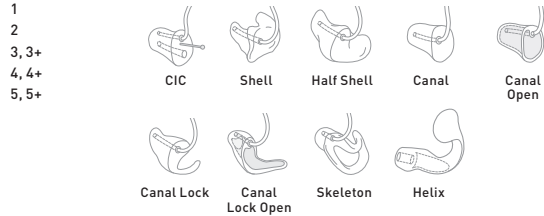

*Also applies to SoundGear non-electronic solutions. **Available for SoundGear only.

BTE Solutions

Thin Tube Earmolds

Digital SLS / HS Silicone 60 / HS Silicone 40

Tubing Lengths:

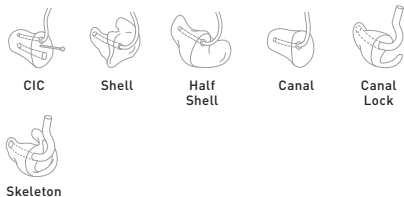

Traditional Earmolds

Digital SLS / HS Silicone 60 / HS Silicone 40

Tubing:

13 Regular
13 Heavy
13 Extra Heavy
13 Dry Tubing
13 Regular Snap Connect
13 Heavy Snap Connect

Pro Tip: Adding White as one of the three colors within a color swirl combination will help separate and make the other color choices "pop."

Color combinations to avoid:

- 'Light' colors combined in Swirl or 'Light' colors combined with 'Clear'
- Similar colors combined in Swirl

Business Solutions

In addition to our industry-leading products, we offer a full suite of business solutions designed to keep your practice thriving.

Business Equipment

State-of-the-art diagnostic equipment is essential to providing the best patient experience at your practice. With the help of our Business Equipment Services, it's never been easier to find and maintain the right solutions for all your testing and fitting needs— all in one place.

Equipment includes (but not limited to):

- **Audiometers**
- **Tympanometers**
- **Fitting equipment**
- **Combination units**
- **Video otoscopes**
- **Supplies**
- **Sound rooms/enclosures**

All Make Repair

Our All Make Repair department services hearing aids that are damaged and out of manufacturer's warranty. This even includes hearing aids by manufacturers no longer in business. **Our team is here to help with the following:**

- **All Make Repair estimates**
- **Reconditioned aids orders**
- **Miscellaneous parts and accessory orders**
- **Analog aids**
- **Body aids**
- **Bone conduction aids**
- **All Make Salvage Program**
- **Hearing Aid Recycle Program**

Batteries

Not only does every battery purchase deliver a positive jolt to your bottom line, each visit to your office for batteries is one more chance to build loyalty and generate referrals from your patients.

- **Drive retention**
Returning patients are more likely to purchase upgrades, warranties and accessories from you due to the ongoing care and service that you provide.
- **Build loyalty**
Superior aftercare will lock in your existing patients rather than allowing them to go to your competition for their future hearing healthcare needs.
- **Boost prospects**
Use battery promotions to attract new patients to your practice.
- **Protect patients' investment**
High quality batteries protect your patient's investment and enhance your patient/provider relationship.
- **Make the right selection**
Choose from long-lasting customized or branded batteries, depending on your business goals.

Scan to purchase.
