\*\*Although streaming direct, the program will not be Streamboost and will stream in whichever program the hearing professional has selected.

# The best just got better.

## Livio Edge AI | Livio AI | Livio

### Hearing Performance & Healthable Technology Features

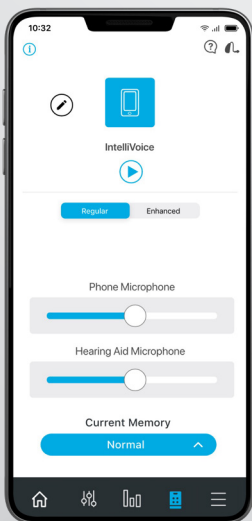

**Edge Mode**  
Give your patients the edge; no need to address unique listening environments with generalized programs and memories. Edge Mode instantly conducts an AI-based analysis of the current listening environment and makes smart, immediate adjustments.

- This AI algorithm is on board the hearing aid – **no need for the patient to have their smartphone.**
- **A great choice for face masks:** instantly optimizes to compensate for any face mask type, social distance and background noise.
- Configure access of the feature within the Inspire X User Controls screen or in the Thrive app.

**Thrive Assistant**  
Patients use **voice commands** to get answers to questions, set reminders and control their hearing aids.

**Find My Phone** **NEW**  
Using their hearing aids and Thrive Assistant, wearers are able to locate their lost or misplaced phone by having it ring.

**Mask Mode** **NEW**  
New custom memory in the Thrive app **boosts speech audibility.**

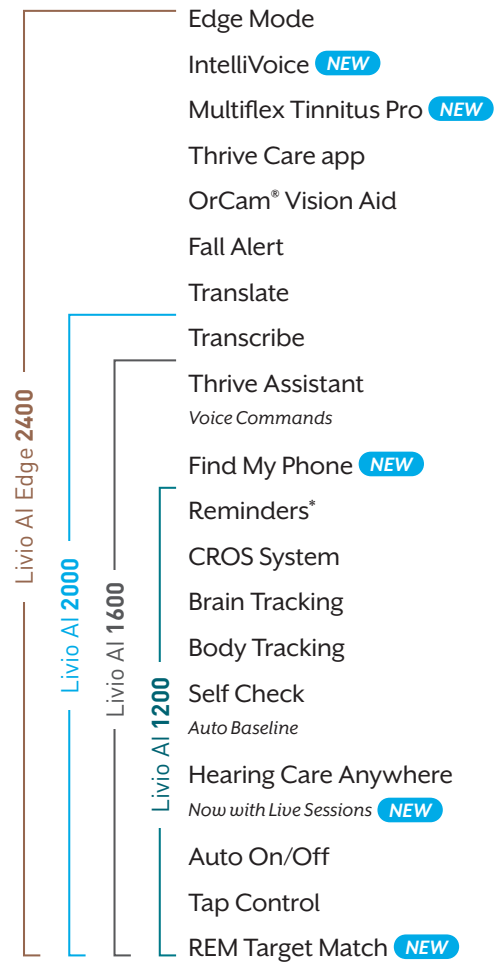

**IntelliVoice** **NEW**  
Thanks to the power of AI, this first-of-its-kind speech enhancement feature uses the wearer's Apple smartphone to deliver an unprecedented experience to those with a **loss of at least 50 dB HL or greater at 250 and 500 Hz.**

Available in the Advanced version of the Thrive app within the Accessories menu.

IntelliVoice features **two modes:**

- **Regular** is similar to the Live Listen function but without the lowpass filter imposed by iOS.
- **Enhanced** uses the IntelliVoice algorithm that taps into deep neural network parameters to enhance speech like never before.

### AI for All

New features are accessible through a performance update.

### 2.4 GHz Accessories

Our exceptional line of accessories connects patients wirelessly to their world.

\*Reminders is available for purchase within the Thrive app for the 1200 and 1000 technology tiers.

The app may look slightly different depending on your phone and/or hearing aid model.
