

What are over the counter hearing aids (OTC)?

OTC hearing aids like **Start Hearing one** are for adults 18+ with perceived mild to moderate hearing loss. You can buy them without a prescription.

Ask your hearing care professional if this option is right for you.

Signs of mild to moderate hearing loss

- Voices and sounds seem muffled.
- Hearing in group settings and noisy areas is difficult.
- Understanding phone conversations is challenging.
- Volume levels for television and music are louder than others prefer.

If you have any of these hearing loss signs, then **Start Hearing one** may help.

Not sure what's right for your hearing loss?

Talk to a hearing care professional and have your hearing tested.

If you have mild to moderate hearing loss, **Start Hearing one** may be the right solution.

START  **HEARING one**

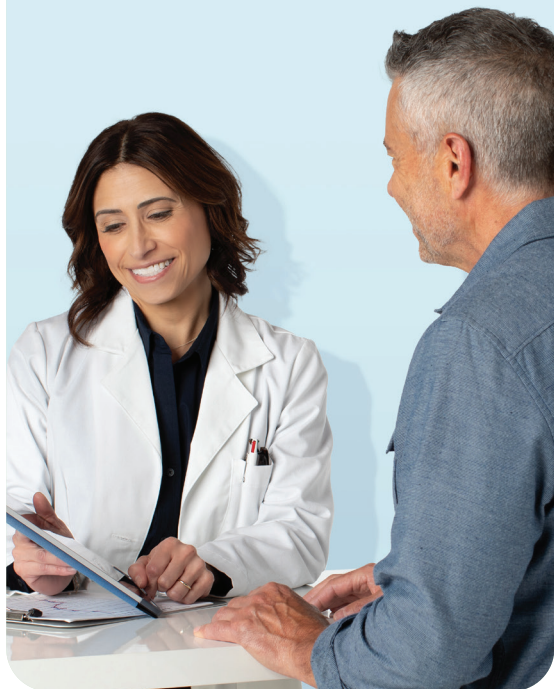

Welcome to Start Hearing

Step One in Your Hearing Journey

Make a sound decision about your hearing.

Start Hearing one is a new hearing device for people with perceived mild to moderate hearing loss. It doesn't need a prescription, so it's a convenient way to improve your hearing health.

Start Hearing one Features:

Loss levels	Mild to moderate
Streaming	Yes
Trial Period	30 days
App Controlled	Yes

Hear better wherever you go, whatever you do.

Start Hearing one uses latest-edge processing and software to make sounds clearer. It has four preset programs that help you hear better in many situations. You can use the app to control volume and change settings as needed.

Home

Medium noise reduction in quiet small groups or watching TV

Restaurants

High noise reduction in noisy locations

Outside/Car

High noise reduction in wind and road noise

Music

Medium noise reduction in stadiums, auditoriums, concerts, or music in general
