# Made for better connections.

Halo 2 intuitively connects to your iPhone, iPad and iPod touch via Bluetooth technology and Starkey's easy-to-use TruLink app.

TruLink offers additional features designed to enhance anywhere you go — so you can easily enjoy everything you do.

## Personalized Control

Personalized Control in the TruLink app lets you make adjustments to SoundSpace and Noise Manager to suit your preferences in different listening environments.

## Phone Calls

Answer your calls with the touch of a button and hear an entire conversation streaming directly to your Halo 2 hearing aids via Bluetooth® technology.

## Remote Control

Using the remote control feature in the TruLink app, you can change volume and switch memories on your hearing aids right from your iPhone.

## TruLink Memories

You can create up to 20 TruLink Memories using the SoundSpace tool on the TruLink app.

You can even geotag memories using the built-in GPS on your iPhone. A geotagged memory will recognize where you are and automatically adjust your Halo 2 hearing aids when you enter that space. For instance, a geotagged “coffee shop” memory will automatically activate when you walk into your favorite coffee shop.

## Auto Experience Manager

Automatically adjusts your Halo 2 hearing aids' loudness over time to help you transition to your new hearing experience in the most comfortable way possible.
