2.4 GHz ACCESSORIES (StarLink)

Remote Control

Control programs and volume, mute hearing aids, and turn other special features on and off.

TV Streamer

Offering excellent sound quality, stream audio from the television or other electronic audio source directly to hearing aids.

Remote Mic Plus

Use as a remote microphone, or easily stream binaurally from four different audio sources: Bluetooth®, Telecoil, FM, or Line-In.

Mini Remote Mic

Enjoy one-on-one conversations in noisy environments with our small, easy-to-use Mini Remote Microphone.

Table Microphone

With 8 built-in microphones, users can enjoy group settings like family gatherings or noisy restaurants.

CHARGERS

StarLink Chargers

Unique chargers for Genesis AI mRIC R & RIC RT hearing aids come with on-board turbo charging and must be plugged into an external power source.

StarLink Premium Mini Chargers*

Unique chargers for Genesis AI mRIC R & RIC RT hearing aids come with on-board turbo charging and on-board battery allowing for on-the-go charging.

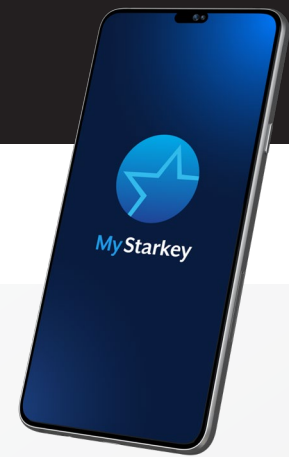

Custom & Premium* Custom Chargers

Both chargers operate as a charging station and carrying case for Genesis AI ITC/HS R & ITE R hearing aids. The Custom Charger must be plugged into an external power source for use.

*Premium charger default for new rechargeable hearing aid orders. Includes on-board lithium-ion battery.

My Starkey App

Personal Health Monitoring Technology Features:

Available with **Genesis AI** products

Edge Mode+

With just a double tap, Edge Mode+ uses AI for on-demand sound quality optimization.

Hearing Health and Activity Tracking

Monitors vigorous physical activity and personal health monitoring features like active listening.

Patient Education

A complete library of fresh "how-to" content and videos.

Smart Assistant

Voice-activated audio adjustments, reminders, answers to hearing aid topics, and more.

Hearing Control

Change volume and switch memories with your smartphone.

Personalized Programs

Create custom programs and geotag programs so adjustments occur automatically when you return to that location.

Self Check

Allows you to perform a diagnostic test of your hearing aid components.

Fall Alert

With integrated sensors, Fall Alert can detect falls and send alert messages to selected contacts.

Personalized Control

Make personalized, real-time adjustments.

2-Way Audio

Take and end calls directly from your hearing aids instead of your Apple® device. Plus, hearing aid microphones pick up and stream your voice directly back to iPhone and iPad*, allowing you to talk hands-free.

Language Translation

Communicate with people who speak other languages via the easy-to-use translation tool in your My Starkey app (requires an internet connection).

Tap Control

Tap your ear twice to start & stop streaming audio from a 2.4 GHz accessory.

TeleHear

Remote Programming allows for virtual adjustments to hearing aids.

Find My Phone

Using hearing aids and Smart Assistant, you can now locate your lost or misplaced phone by having it ring. No other hearing aid offers this capability.

Mask Mode

A custom memory that boosts speech audibility.

Auto Experience Manager

Automatically adjusts loudness over time to help you transition your new hearing experience comfortably.

Phone Calls

Answer calls and hear the conversation streamed directly to your hearing aids using compatible devices.

Transcribe

Conversations are transcribed so you can read what's being said into text that can be saved or shared.

Voice AI*

This always-learning speech enhancement feature uses an iOS smartphone to deliver an unprecedented experience for those with moderate loss of 50 dB HL or greater.

Find My Hearing Aids

Easily locate lost hearing aids.

Adaptive Car Mode

Hearing aids automatically change settings to reduce the annoying sounds of driving.

Reminders

Personalized or on-screen reminders for daily tasks such as taking medications.

Siri Integration

Have Siri® read texts and emails directly to your hearing aids (available with Apple devices).

*Requires an iOS device.

The app may look slightly different depending on your phone.
