

Earplug Solutions

As the recognized expert in custom hearing instruments, Starkey integrates the same breakthrough manufacturing and technology innovation in our customized earplug solutions. The result is the best custom fit and noise attenuation for your patients.

Protection

Mini Filtered Earplug

Our filtered earplugs attenuate across all frequencies rather than just low and mid-range frequencies. These are perfect for musicians, concerts, dental workers, sporting events, noisy work environments, etc. The interchangeable filters come in 4 attenuation levels: 10dB, 17dB, 26dB and the Impulse filter. The DI Impulse filter protects hearing from high-intensity impulse sounds like gun shots and artillery fire. Designed to allow air to enter the ear, this unique filter technology retains spatiality and sound directionality as required in hunting and combat situations.

NAM

Solid Earplug

Custom-fit earplugs that provide outstanding noise protection for a variety of recreational and occupational environments.

Solid Earplug

High-Frequency Noise Filter

Also known as Hocks Noise Breakers, these custom earplugs contain a patented acoustical chamber and filter to attenuate sound to appropriate levels.

Hocks

Floatable Swim Plug

Custom-fit earplugs that seal out water. Floatable if dropped in the water.

Swim Plug

Sleeping Earplug

Custom earplugs made of soft material that fit comfortably in the ear to reduce ambient noise while sleeping.

Sleeping Earplug

Personal Audio

Custom Earbud Molds

Custom-made earmolds to fit most standard-sized earbuds, earbud style monitors and most popular Bluetooth® devices.

EarPod mold

Earphone mold

Bluetooth

How to order earplug solutions:
