

Quick Start Guide

Picasso

Custom Products

At Starkey, we believe that to hear better is to live better.

Picasso hearing aids help you stay connected to the people and things you love most.

Picasso offers Starkey's most advanced technology with supreme sound quality and features, customizable to fit your unique hearing needs.

Get the most out of your hearing aids

Please visit [starkey.com/care](https://www.starkey.com/care) for additional tools and resources including:

- Instructional videos
- Operations manuals
- Product brochures

Batteries

Your hearing aid uses a battery as its power source. To insert or replace the battery:

1. Use the finger pick on the battery door.
 2. Open the battery door gently and remove the old battery.
 3. Remove the colored tab from the new battery. Wait 3–5 minutes after removing tab before inserting battery.
 4. Insert into the battery door, "+" side up.
 5. Close the battery door.
- NEVER FORCE THE BATTERY DOOR SHUT. This could result in serious damage. If the door will not close securely, check that the battery is inserted correctly.
 - Do not open the battery door too far or damage is likely to occur.
 - Dispose of used batteries immediately in the proper waste or recycling container.

Battery Indicators

An indicator will sound when the battery voltage is low. You have approximately 30 minutes* to replace the battery. An indicator may also sound just before the battery stops working.

Power On & Off

TO TURN ON:

Insert a battery and completely close the battery door. Your hearing aid has a power-on delay which may require a few seconds. You may hear a tone indicating that your hearing aid is powered on.

TO TURN OFF:

Open the battery door until the battery is no longer touching the battery contacts.

Hearing Aid Care

Keep your hearing aid clean. Heat, moisture and foreign substances can result in poor performance.

**Actual time between low battery indicator and shutdown will vary depending on environmental noise levels and brand of battery used.*

- Use a cleaning brush or soft cloth to clean debris from around the user control, microphone and battery compartment.
- Inspect the receiver, earbud and wax guard regularly.
- Never use water, solvents, cleaning fluids or oil to clean your hearing aid.

Helpful Hints

- When not wearing your hearing aid, open the battery door to allow any moisture to evaporate.
- Do not take apart your hearing aids or insert the cleaning tools inside them.
- When not in use, place your hearing aid in the storage container and store:
 - In a dry, safe place
 - Away from direct sunlight and heat to avoid extreme temperatures
 - Where you can easily find them
 - Safely out of reach from children and pets

Hear Clear Receiver Wax Guards

Custom hearing aids integrate disposable Hear Clear earwax protection. The innovative wax guards prevent earwax accumulation in the hearing aid receiver. When you need to replace your wax guards, please follow the instructions below:

1. Insert empty end of the application stick straight into used wax guard in hearing aid.
2. Pull **straight** out (do not twist) on stick to remove used wax guard.
3. Use opposite end of stick to firmly insert clean wax guard straight into hearing aid.
4. Pull **straight** out (do not twist) to remove stick and discard.
