Quality in... quality out

Your professional expertise is critical when selecting the best solution for a patient. Many factors and considerations come into play when determining if a patient is a custom hearing aid candidate, including:

- Audiogram
- Dexterity
- Ear anatomy and history
- Lifestyle

Ultimately, **the patient has come to you** to weigh all considerations—physical, audiological and patient priorities—and recommend a solution that delivers both success and satisfaction.

A **superior custom product fitting starts with a high quality ear impression**. Making a perfect impression requires proper technique, an attention to detail, and repetition.

As the custom hearing aid experts, we know a thing or two about making accurate, precision-tested impressions—and how good impressions can also be used to make earmolds, custom cases, hearing protection solutions and more.

Scan the QR code or go to StarkeyPro.com for support materials, how-to videos, and more.

Developed with help from Starkey's most experienced impression takers, these tools share best practice tips perfected from shooting thousands of impressions in our Center for Excellence.

Hear better. Live better.

Material Options

Material	Options	Shore	Texture
Digital SLS Acrylic	<ul style="list-style-type: none"> • RIC • BTE & Thin Tube • Specialty 	90 Shore	Most Rigid
High Strength Silicone 60	<ul style="list-style-type: none"> • RIC • BTE & Thin Tube • Specialty 	60 Shore	Swirl 3 colors Glitter option
High Strength Silicone 40	<ul style="list-style-type: none"> • RIC • BTE & Thin Tube • Specialty 	40 Shore	Swirl 3 colors Glitter option
Floatable Silicone	<ul style="list-style-type: none"> • RIC • BTE & Thin Tube • Specialty 	25 Shore	Swirl 3 colors Softest

Venting Guide

This guide is applicable for all earmolds and earplugs. Vent size is limited by ear anatomy.

Vent Name	Approximate Size
Pressure Vent	0.8 mm
Small	1.2 mm
Medium	1.8 mm
Large	2.55 mm
Select-A-Vent	3.37 mm
Extra Large	As large as canal allows

Color Options

Our earmolds come in a variety of color options. **The latest color options can be found on the eStore.** Some colors appear differently in certain color families based on material type.

Swirl combinations are also available using up to three colors.

Pro Tip: Adding White as one of the three colors within a color swirl combination will help separate and make the other color choices “pop.”

Color combinations to avoid:

- ‘Light’ colors combined in Swirl or ‘Light’ colors combined with ‘Clear’
- Similar colors combined in Swirl

RIC Solutions

RIC Earmolds Digital SLS / HS Silicone 60 / HS Silicone 40

Available for both SnapFit 2.0 and SnapFit Receivers

Specialty Solutions

Business Solutions

In addition to our industry-leading products, we offer a full suite of business solutions designed to keep your practice thriving.

Hear better. Live better.

Business Equipment

State-of-the-art diagnostic equipment is essential to providing the best patient experience at your practice. With the help of our Business Equipment Services, it's never been easier to find and maintain the right solutions for all your testing and fitting needs— all in one place. **Equipment includes (but not limited to):**

- **Audiometers**
- **Tympanometers**
- **Fitting equipment**
- **Combination units**
- **Video otoscopes**
- **Supplies**
- **Sound rooms/enclosures**

All Make Repair

Our All Make Repair department services hearing aids that are damaged and out of manufacturer's warranty. This even includes hearing aids by manufacturers no longer in business. **Our team is here to help with the following:**

- **All Make Repair estimates**
- **Reconditioned aids orders**
- **Miscellaneous parts and accessory orders**
- **Analog aids**
- **Body aids**
- **Bone conduction aids**
- **All Make Salvage Program**
- **Hearing Aid Recycle Program**

Batteries

Not only does every battery purchase deliver a positive jolt to your bottom line, each visit to your office for batteries is one more chance to build loyalty and generate referrals from your patients.

- **Drive retention**
Returning patients are more likely to purchase upgrades, warranties and accessories from you due to the ongoing care and service that you provide.
- **Build loyalty**
Superior aftercare will lock in your existing patients rather than allowing them to go to your competition for their future hearing healthcare needs.
- **Boost prospects**
Use battery promotions to attract new patients to your practice.
- **Protect patients' investment**
High quality batteries protect your patient's investment and enhance your patient/provider relationship.
- **Make the right selection**
Choose from long-lasting customized or branded batteries, depending on your business goals.

Scan to purchase.
