SMARTER STOCKING STARTS WITH THE SHELL ECOBOX™ SYSTEM

Why Choose the Ecobox™ System?

- **Save Space:** Ecobox™ cartons take up half the space of traditional quart bottle cases.
- **Eco-Friendly:** Uses 89% less plastic than 24-quart bottles and comes in a fully recyclable carton.
- **Efficient Dispensing:** A 6-gallon box with a custom valve and 8-quart pitcher makes oil transfer fast and clean.
- **Less Waste, More Speed:** The internal bag drains quickly with minimal residue, reducing handling time.
- **Easy Inventory Checks:** Built-in visual ports with level markings.

CARQUEST® EXTENDED PERFORMANCE AIR FILTER

- Higher dust holding capacity offers superior engine protection
- Engineered to trap the full spectrum of dust, from fine particles to coarse debris, extending filter life and protection
- Minimizes the risk of silica entering engine oil, preserving lubrication and preventing friction-related wear
- Safeguards critical engine parts, including piston, cylinders, and bearing, from abrasive wear and premature damage

CARQUEST® PREMIUM AIR FILTERS

- Built to the highest original equipment standards.
- Matches OE form, fit and function. High Efficiency media traps up to 99% of contaminants based on ISO-5011 test.
- Built to withstand high CFM conditions of forced induction engines.

CARQUEST® STANDARD AIR FILTERS

- Durable polyurethane construction maintains structural support
- Cured filter media increases tensile strength, allowing filter to maintain high-pressure requirements without collapse
- Precision engineered for OE form, fit and function
- Lasts up to 12,000 miles induction engines

CARQUEST® EXTENDED PERFORMANCE CABIN FILTERS

4-stage filtration traps 99% of airborne contaminants like allergens, pollen, dust, and dirt.

1. Particulate layer traps dust particles
2. Activated charcoal captures harmful gases
3. Baking soda absorbs bad odors
4. Antimicrobial layer inhibits growth of mold and bacteria on the filter

CARQUEST® PREMIUM CABIN AIR FILTERS

- Select applications available with activated carbon infused media to neutralize odors
- Electrostatic particulate, non-woven filter media allows longer filter life
- 95% efficiency at 3 microns per ISO 11155-1 test standard
- All filters include application-specific installation instructions

CARQUEST® EXTENDED PERFORMANCE (EP) OIL FILTERS

Delivering superior filtration, this oil filter helps keep engines clean and efficient. Durable hydrogenated nitrile gaskets and O-rings ensure reliable sealing and lasting protection.

CARQUEST® PROFESSIONAL PLATINUM BRAKE PADS

Get unmatched performance and reliability with Carquest® Professional Platinum brake pads.

- Leading number of friction formulas for maximum performance
- Original equipment formulation offering
- Burnishing compound for faster break-in of pads and rotors
- 4-layer shim engineered to eliminate noise and prevent shim wear
- PTFE coated brake hardware included when available — coated hardware eliminates rust and corrosion buildup to reduce drag, providing increased durability and noise reduction

**PROFESSIONAL
PLATINUM**

Euro Line

Our Euro line features all the benefits of Carquest Professional Platinum brake pads with a specific design to meet the needs of European imports. The Euro line uses ceramic, low-metallic and semi-metallic friction for superior performance, with electronic wear sensors included for most applications when required.

Truck/SUV Line

Our Truck/SUV line features all the benefits of Carquest Professional Platinum brake pads, with coverage for an extensive list of Truck and SUV applications. The program's formulations are specifically designed for superior performance, with leading stopping power and a quiet performance.

CARQUEST® BRAKES CHANGEOVER PROGRAM

- Ask your local representative or delivery store about the Carquest brake pads stocking program. We'll even give you credit for your old pads with a changeover.
- Credit amount issued is based on comparable pads
- Carquest Professional Platinum, Premium Gold, and Standard brake pads are eligible for changeover

CARQUEST® PROFESSIONAL COATED BRAKE ROTORS

Features RotorShield+, a zinc and aluminum anti-corrosion coating that protects against rust and keeps rotors looking new.

- Certified high-carbon rotors provide:
 - Superior resistance to pedal pulsation
 - High heat resistance to reduce thermal cracking and brake pedal fade
 - Reduced noise compared to a standard rotor
- Manufactured to OE specifications for proper cooling and superior stopping power
- Coating prevents rust buildup in vanes – rotors stay cooler and resist pulsation
- Ready to install — no cleaning necessary compared to non-coated rotors

CARQUEST® PREMIUM ROTORS

Offers superior stopping power and OE vane size with proper harmonic design that improves cooling and eliminates brake noise.

- Features RotorShield™ on late model applications (primarily 2013 model year and newer), a rust-inhibiting barrier that provides up to 5X more protection than non-painted rotors.
 - Engineered to withstand 120 hours of salt spray testing
 - Ideal for open wheels
- Air gap eliminates brake fade and increases pad life
- Non-directional finish decreases break-in time

CARQUEST® FRONTLINE SEVERE DUTY AND POLICE BRAKE PADS

Providing maximum braking performance for police, towing, heavy hauling and frequent braking applications, Carquest Frontline brake pads are the ideal choice for severe duty applications.

- Complete testing protocol using real-world conditions — Results gathered through on-vehicle testing
- Premium formulations — Dissipates heat and reduces high-temperature fade, delivering extended pad life and lower cost-per-mile
- Superior stopping power and pad life — Delivers the tough reliability required for police and severe duty fleets
- Pad installation hardware — Included where required to complete the job

CARQUEST® FRONTLINE™ BRAKE ROTORS

Manufactured to withstand severe duty abuse, extending the limits of braking punishment from heavy towing or pursuit applications. Frontline Severe Duty castings meet or exceed original equipment design, delivering better stopping power, superior heat dissipation and high tensile strength.

- High tensile strength and carbon content for superior severe duty performance
- Coated to prevent rust and corrosion, improves heat venting
- Built to meet or exceed OE fit, form and function

AGS FITTINGS ASSORTMENT

- Designed for specialty and general repair shops
- Packaged in a shatter-resistant, see-through plastic tray

BATTERY TESTER EARNBACK PROGRAM

Purchase a battery tester and earn \$5 cash back on every qualifying* battery purchase.

Batteries never fail at a good time. That's why testing your customer's battery and electrical system is important. A quality digital battery and electrical system tester helps you keep your customers safe by telling you when batteries are about to fail. And now, when you purchase an eligible tester, our Battery Tester Reward Program gives you \$5 for every qualifying battery purchase.

Here's how the program works

- Purchase an eligible tester through December 31, 2026
- Earn a \$5 reward for each qualifying purchase of a DieHard® or Optima® car or light truck battery through December 31, 2027
- Limit one cash back reward per professional account

*Excludes Lawn & Garden, Marine, Powersport, Golf Cart, Hybrid and Truck batteries. Rebate paid out quarterly.

DAYCO® SERPENTINE BELTS

Dayco's extensive line of Poly-V serpentine belts are engineered for high mileage, demanding drives found in today's vehicles.

Dayco Poly-V serpentine belts deliver OE-required quality and meet and exceed SAE J1459 and SAE J2432 specifications. The aramid reinforced EPDM compounds are designed to perform better under extreme temperature ranges.

- **EPDM Construction** - Designed to maintain required belt tension over the life of the belt and resist elongations
- **No-Noise Advanced Design** - Engineered to maintain a quiet, vibration-free belt drive system
- **Aramid Reinforced EPDM Rubber Compound** - Designed to elongate over the pulley system, maximize belt life and load carrying requirements

DAYCO® BELT DIAGNOSTIC KIT

- Contains a 2-piece laser pulley alignment tool, belt tension gauge, Dayco belt aWEARness gauge and tension chart per belt size
- Helps properly identify belt noise from pulley misalignment

TPMS - UNIVERSAL SENSORS

Universal (also known as cloneable or programmable) sensors are available from several brands and give your shop a way to stock fewer part numbers of TPMS with more coverage. Universal sensors will require programming prior to installation in order to work properly. After programming and installation, you will typically need to relearn the position of the sensor as well.
