

AI Era Plan

Q2 2025 Update

The AI Era Plan includes an ever-growing suite of solutions. This update includes a summary of the newest solutions and updates to existing solutions.

New Solutions

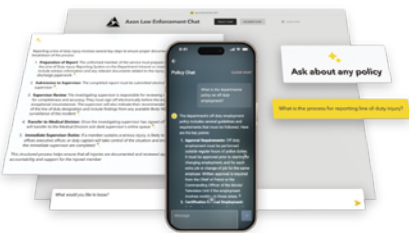

Axon Assistant

Axon Assistant: A voice-activated AI companion available via Axon Body 4 — launched with Real-Time Translation as the first skill. Other skills, including General Q&A, voice access to Policy Chat, license plate lookup, weather, and traffic information are coming later this year.

Policy Chat

Upload your agency policies into Policy Chat, and then your officers can ask any policy question via Axon Evidence or the Axon App. Officers will receive guidance within a few seconds, and Policy Chat always links to the source policy documents, making it easy for your people to verify the information.

Unlimited Smart Detection

Finds and follows human forms through video evidence upon upload, so you can quickly jump to moments that matter. The AI Era Plan includes the Unlimited version of Smart Detection, which runs automatically on all Axon Body 3 and Axon Body 4 videos as they are uploaded.

New Updates for Existing AI Solutions

Draft One

Since launching one year ago, Draft One has saved agencies thousands of hours in report writing time. We've also released several new features, including the following capabilities:

- View transcripts and media playback side-by-side with your report narrative
- Generate English drafts from Spanish audio
- Easily dictate additional narrations to provide details in your report
- Tailor generated draft lengths to match an incidents complexity
- Generate reports in third-person format to match agency standards

Auto-Transcribe, now with Auto-Translate

We now offer automatic translations of transcripts in Axon Evidence. Spanish to English translations are available today, with more languages planned in the future.

New Resources

84% of officers want more AI-specific training, so we will consistently share new AI Resources as part of this update.

AI Trends Report

Wondering where we got that statistic about officers wanting AI-training? Check out the AI Trends Report — we surveyed over 500 professionals in law enforcement about AI and summarized our findings in this exclusive paper.

Draft One Policy Guide

We've partnered with TacLogix to deliver a helpful guide for agencies who are considering their policies as they implement Draft One.
