CUSTOM BOISE GLULAM

Beautiful, Versatile & Custom-Built to Perform

For years, Boise Cascade® has built a solid reputation delivering BOISE GLULAM®, a proven-to-perform structural engineered wood solution, to meet customers' needs.

Whether tackling extra-long spans or designing custom arches, glulam beams can provide the strength, consistency, and design flexibility — plus the rich look of natural wood — without twisting and warping.

From constructing beams, to headers or columns, our custom options ensure you get exactly what you need, when you need it.

WHY CHOOSE BOISE CASCADE?

- **Fast Turn Times:**
Get your glulam in as little as 8 days
- **Limited Lifetime Warranty:**
Rely on a company with over 60 years of experience
- **Engineering Support:**
Expert guidance to meet your specific needs
- **Exceptional Customer Service:**
We're here to help every step of the way
