SAWTEK

An Industry-Leading Automated Saw Solution

Boise Cascade® combines knowledge, software and hardware to create Sawtek®, an all-in-one saw system. This system brings dealers a competitive advantage through automated EWP processing, optimized material use, and customized, pre-labeled job packs for simplified delivery to the jobsite. With the ability to precision-end trim (PET) floor systems, optional precut holes for HVAC and mechanicals, and clear labeling, SawTek ensures precise, repeatable results and maximizes efficiency. Builders benefit from quicker installation, fewer costly errors, and reduced jobsite waste.

When every inch and every dollar counts, SawTek delivers quality results, on time and on budget.

SAWTEK ADVANTAGES

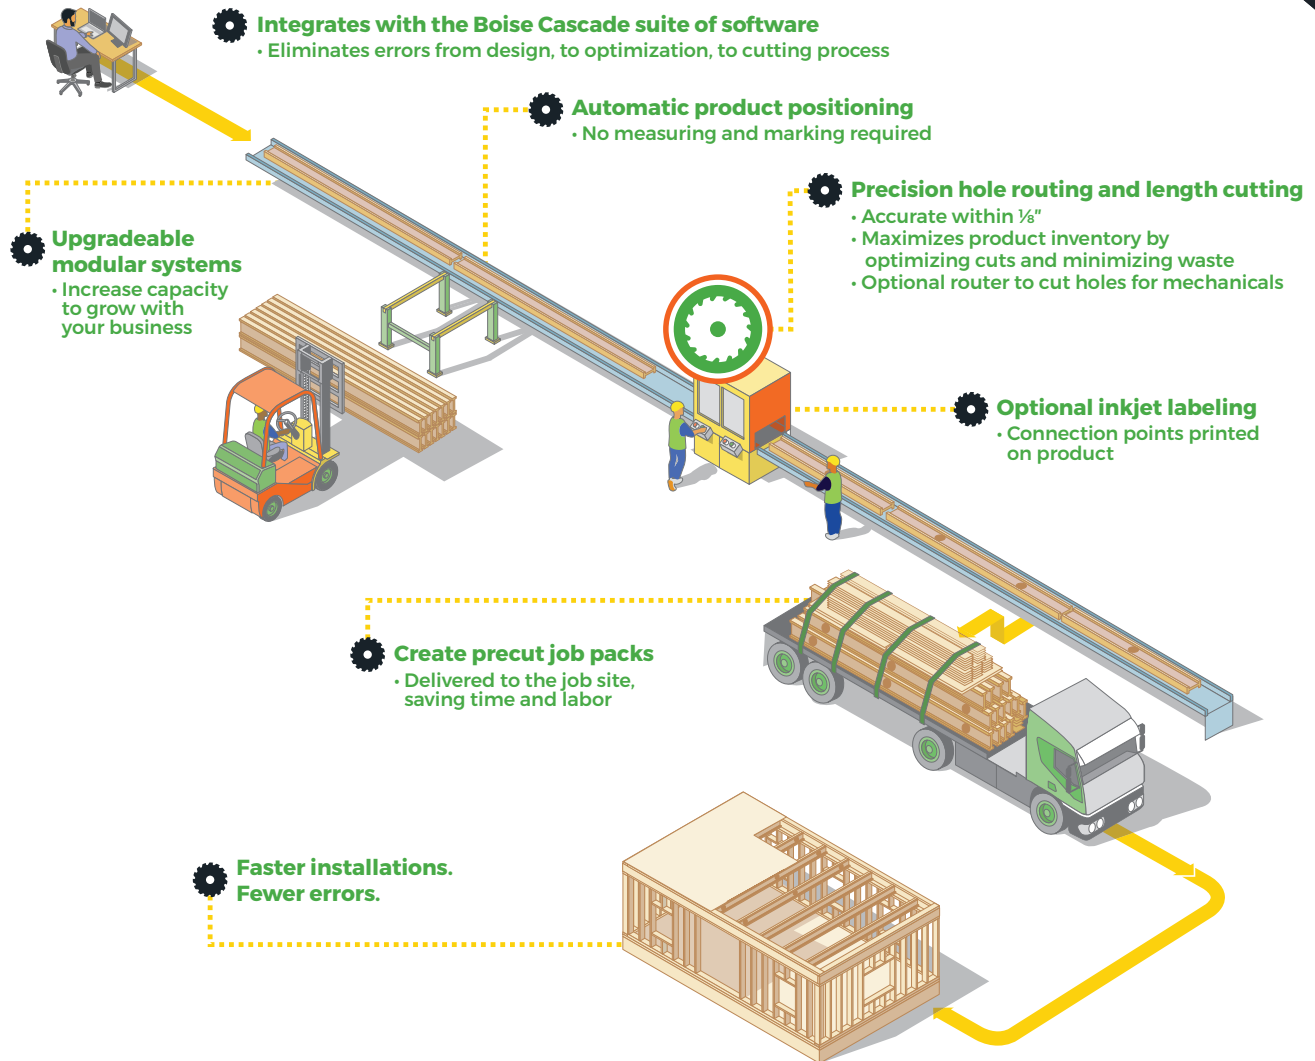

- Available in multiple configurations to fit your facility and traffic patterns. Plus, scalable upgrades for SawTek to grow alongside your business
- Framed-optimized job packs include precise product placement diagrams and installation details
- Option to pre-cut holes for easy install of HVAC and mechanicals
- Integrates with BC Connect® and BC Framer® to digitally manage the entire cutting process from design to delivery
- Inventory optimization helps maximize profitability and reduce waste

Software + SawTek = Streamlined Results

Boise Cascade®
ENGINEERED WOOD PRODUCTS

Order optimization within BC Connect intermixes cut lists of several jobs and runs them together to get the best material utilization. It lets you process cut packs without waste and manage off-cuts for returning usable lengths. By optimizing long lengths, you'll need fewer length SKUs of each series, resulting in increased turns and profit.

THE BOISE CASCADE DIFFERENCE

With Boise Cascade, you get more than reliable engineered wood products – you get results backed by people and resources that support your success. For over 60 years, we've earned the trust of building professionals through our high-quality products, quick and dependable distribution network, technology solutions, and unparalleled support that help keep projects moving and customers satisfied.
