

Boise Cascade®
ENGINEERED WOOD PRODUCTS

SOFTWARE THAT WORKS AS HARD AS YOU DO.

Need to run a calc from a jobsite or review the 3D framing model from your phone? No problem. Introducing a collection of design, estimating, and project workflow management tools created to meet our customers' diverse needs from initial design through construction.

bc.ewpsupport.com

BCConnect®

Our cloud-based suite of integrated tools helps dealers and distributors manage their key workflows across their engineered wood products business. Use only the features that fit your needs or realize the full benefit of having project management, design, and operations coordinated within a single system. Digitally share files and data with any application below to improve efficiency and eliminate mistakes.

- ▶ Project Management
- ▶ Quick Sizing Tools
- ▶ Cut Optimization
- ▶ Analytics and Reporting
- ▶ Master Lists and Quoting
- ▶ Integrated Mobile App
- ▶ Customizable Inventory
- ▶ Cross-Platform Digital Integration

BCFramer®

A powerful 3D modeling tool for dealers and distributors that analyzes floor and roof framing layouts, creates material lists, and allows designers to customize placement plans for the jobsite.

- ▶ 3D Design and Analysis
- ▶ EWP Floor and Roof Layouts
- ▶ Material Lists
- ▶ BC FloorValue® Floor Performance
- ▶ Piece and Price Reports
- ▶ Automated Hanger Selection

BCCalc®

Sizing software for architects, builders, designers and engineers to rapidly analyze most joist, beam, column, stud and tall wall applications.

- ▶ Includes BCI® and AJS® Joists, VERSA-LAM® LVL, BOISE GLULAM® Beams and Dimension Lumber
- ▶ Customizable Project Information and User Defaults
- ▶ Simple Hole and Flange Notch Damage Repair Details
- ▶ BC FloorValue® Floor Performance
- ▶ Integrated Boise Cascade EWP Resource Library

BCFastPlan™

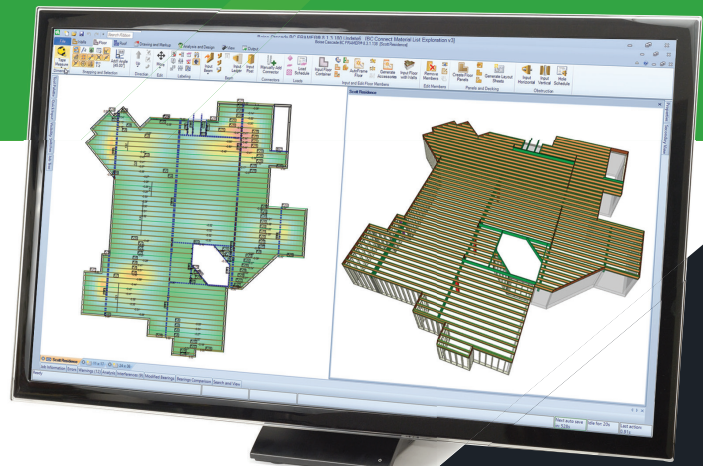

An easy to learn, simpler alternative to BC Framer. This 3D modeling tool enables dealers and distributors to quickly analyze floor and roof framing layouts, create material lists, and customize placement plans for the jobsite.

- ▶ 3D Design and Analysis
- ▶ EWP Floor and Roof Layouts
- ▶ Stick-Framed Roof Analysis
- ▶ BC FloorValue® Floor Performance
- ▶ Material Lists and Customizable Reports
- ▶ Automated Hanger Selection

BC\$Estimator®

Dealers and distributors can create fast and accurate material list takeoffs, reports, and jobsite placement plans without having to create complex 3D models.

- ▶ Rapid Takeoffs for EWP Floors and Roofs
- ▶ Ideal for Quotes or Pre-Engineered Plans
- ▶ Simplifies Multi-Family/Light Commercial Estimating
- ▶ Customer-Specific Preferences

Why choose Boise Cascade Software?

Because access to the right tools for the job shouldn't cost extra. Dealers and distributors aligned with our brand have access to the entire software suite. What's more, BC Calc® is available to everyone. Included with our free software is a full line of full support:

- Live Software Technical Support
- In-Person and Virtual Training
- Engineering Technical Support
