ENGINEERED WOOD PRODUCTS

VERSA-LAM LVL

Stair Stringers

Support in Every Step

Take builds to greater heights without twisting, shrinking, or bowing. The consistent strength and quality of Boise Cascade® Versa-Lam® LVL Stair Stringers create durable stairs free of squeaks or creaks. They provide the support your stairs need, while Boise Cascade delivers the resources, software solutions, and product expertise to support projects from start to finish.

VERSA-LAM LVL STAIR STRINGER ADVANTAGES

- High dimensional stability helps support heavy loads and long lengths
- Manufactured with veneer crossbands to resist breaking and chipping*
- Consistent moisture content to prevent bowing, twisting, or warping
- Can be easily cut on site to fit a project's unique needs
- Consistently straight, ensuring each step is safe and stable
- Wide range of widths and depths available*

*Crossband is available with
Boise Cascade Versa-Lam® LVL 1.5E 1800

Reliability Comes Standard

Boise Cascade®
ENGINEERED WOOD PRODUCTS

Engineered for consistency with no camber, Versa-Lam LVL Stair Stringers make installation quick and predictable. Unlike dimensional lumber, which can have knots and other weak points, they offer simplified cutting and stronger connections with less effort. High dimensional stability throughout each member helps reduce movement, keeping stairs solid and quiet.

Versa-Lam LVL Stair Stringers are a smart solution for builders who want to get it done right — and done once without callbacks.

THE BOISE CASCADE DIFFERENCE

With Boise Cascade, you get more than reliable engineered wood products — you get results backed by people and resources that support your success. For over 60 years, we've earned the trust of building professionals through our high-quality products, quick and dependable distribution network, technology solutions, and unparalleled support that help keep projects moving and customers satisfied.
