

Schall-Ex™ L-15/30 WS

the ultimate interior door seal solution: smoke, fire, sound

The Schall-Ex™ L-15/30 WS is athmer's any-door drop seal solution, designed for "in-groove" installation and perfect floor adaption.

This seal offers a very high sound attenuation value and impresses with its robust, durable internal mechanism. Thanks to parallel release, it adapts perfectly to the floor and has a clip-on sliding release.

Use cases:

- Interior hinged doors, single or double-leaf
- Metal or timber doors

What makes it unique?

- Actuator requires no protective press plate for the frame
- No lateral travel during actuation avoids gaps at door frame
- WS fixing: screw fixed either side
- Up to 52 db sound reduction!

About athmer:

athmer is a leader in the drop seal market and offers solutions for doors of all type and function.

Why a drop seal?

A drop seal is designed to close the gap between the bottom of the floor and the door and the top of the door and the ceiling. The total solution ensures protection from smoke, light, noise, weather and energy loss through the opening.

Common features across athmer drop seal applications:

- Removeable actuator for easy adjustment and construction site protection
- Parallel actuation drops the seal evenly on both sides of the floor to prevent drag and ensure longevity
- Self-leveling to compensate for uneven floors.
- Can be ordered to length; stock inventory is field trimmable
