BASICS FORMANI	152

We hope that this document provides helpful information for designers and dealers in their efforts to bring this world-class architectural hardware to their projects. This lockset buying guide and the accompanying US dollar price list is effective as of April 3, 2023 and supercedes all prior information regarding the hardware sets in these collections.

Please understand that despite best possible care in the preparation of this document and the associated specification sheets, no responsibility is taken for any printing errors or omissions. Any reprint, even in excerpts, is strictly subject to prior approval.

We would be very grateful for any feedback you might provide concerning FORMANI or this program.

ABOUT FORMANI

Over the past decades, FORMANI has evolved from a small Dutch family business to an award-winning internationally-recognized luxury brand, delivering their products to over fifty countries. Collaborating with world-class designers to develop distinctive architectural hardware collections, FORMANI manufactures their hardware to the highest standards by constantly challenging themselves to push established boundaries to create innovative products.

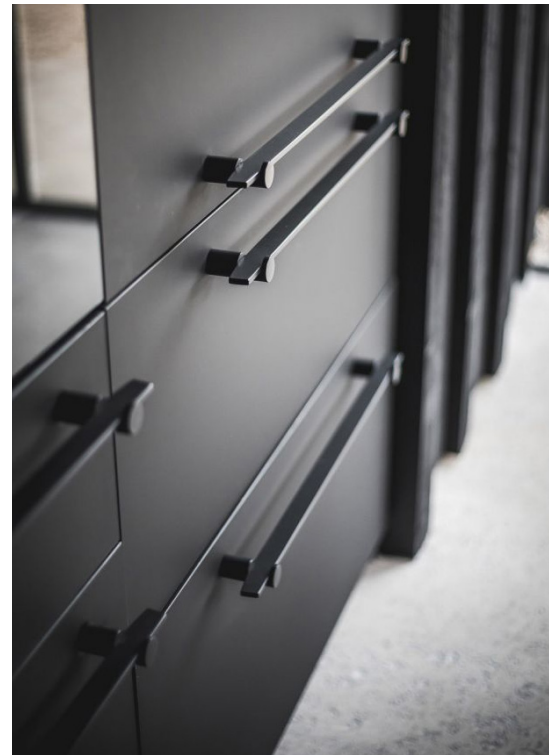

Their motto, '**Obsessed with details**', epitomizes everything they do. From product to process, from strategy to service. FORMANI works to achieve the perfect balance between design, optimal functionality, and quality. Because, it's in the details that the good becomes great.

TOTAL CONCEPT OFFERINGS

FORMANI believes that, to be truly successful, projects require all the elements to be in balance. For this reason, all of their collections are developed to deliver a total design concept. By offering all the fittings one might need—window handles, lift-slide hardware, furniture pulls and knobs, door stops, and even bath accessories—like a unifying force, the chosen signature or finish can inhabit and enhance the entire project. Although doorware may seem like just a small part of the whole, FORMANI believes these details can make or break a design.

This Price Book includes a selection of accessories for each collection that can be specified to help provide a cohesive design look and feel throughout your projects.

THE COLLECTIONS

For this edition of the Buying Guide, we feature eight of FORMANI's most popular and iconic collections—ONE, INC, ARC, TENSE, ECLIPSE, RIVIO, SQUARE, and BASICS. Together they present designers with a broad selection of forms and finishes for all types of residential, hospitality or commercial projects. These collections not only hold to FORMANI's Total Project concept, but some even offer levers in different sizes to allow designers the ability to tune their choices to the scale of the door.

ABOUT THIS PROGRAM

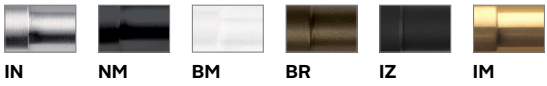

In Europe, door trim is very rarely delivered with their locks. Door slabs arrive on the job site with the locks already integrated, only requiring the levers and other trim to complete the prehung opening. In North America, the expectation is for the door to be simply prepped for all door hardware, with trim and locks delivered in sets, ready to install in the mortises.

Bridgeport Worldwide has developed this buying guide to make it easier for our designers and dealers to quickly specify and price complete FORMANI door hardware kits, so that everything required for proper installation arrives on site together. Standard sets in the offering integrate the most common trim with world-class Accurate mortise locks, as well as tubular, and dummy configurations.

The standard sets defined in this program are available on shorter lead times than ordering components separately. If you don't see the lock function, trim combination, or other solution your project requires, we are here to help specify, source, and price your solution. We welcome any comments about ways we might improve this program in the future.

Studio Piet Boon

ONE, INC, ARC

Balancing functionality, aesthetics and individuality.

The simplest details leave a lasting impression. Never underestimate the importance of door fittings. ”

The Rockwell Group

ECLIPSE

It's about observing a situation - a process, object or place - and believing it can better.

We want to create something timeless - a modern classic - with an inflection point that responds to the human touch, like a prop on a stage. The door handle signifies transition and journey. ”

Product Design Consultant Gensler

RIVIO

Based on the transition from something lighter to something more solid, the flowing cutaways allow the thumb and fingers to engage in a uniquely comfortable way, affording a better grip and making opening and closing easier. ”

Bertram Beerbaum

TENSE

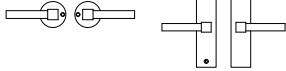

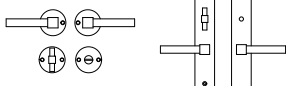

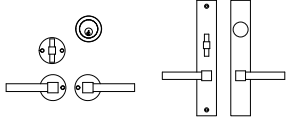

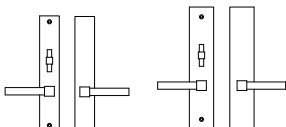

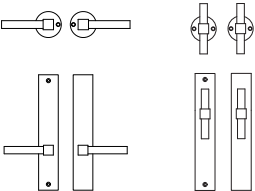

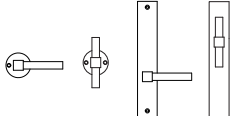

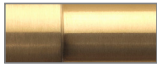

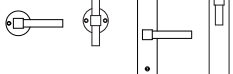

I prefer to design a product that combines design and convenience in a natural way. Any product that I design must be something tough, chic, timeless and a tad own wisdom in them. Functional products with a surprising twist.

Door handles may seem like an inconspicuous part in the home, but the devil is in the detail. ”

LOCKSET OPTIONS :

Backsets :

- Standard backset for our Mortise Locks (**USI | USIM | USC**) is 2-1/2" (**B212**).
- USI and USC locks also available 2-3/4" (**B234**). Use **B234** in your order code (**no upcharge**).
- USC locks also available in 3-3/4" (**B334**), 5" (**B500**) and 6" (**B600**), upon request.
- Standard backset for our Tubular Mortise Latches and Mortise Bolt is 2-3/8" (**B238**).
- Tubular Sets are available with 2-3/4" (**B234**) backset upon request. (**no upcharge**).

Other Lock Body Options :

- For a **lever high USC** mortise lock body and associated trim, use **USD** at the end of your lockset code : **ADD \$100**, upon request
- Narrow Backset Mortise Locks (1-1/4", 1-1/2", 1-3/4", 2", 2-1/4")
- Magnetic Mortise Locks
- European Mortise Locks
- Roller Latch to replace standard Latch
- Electricified Mortise Locks
- High-Security Mortise Locks
- Commercial Mortise Locks for 1-3/8" thick doors
- Rabbeted Kits
- Other Accurate Door Functions
- Custom Extended Strikes

Door Thickness :

- Standard thickness for this program is 1-3/4" (**T134**), and work for doors from 1-3/8" to 1-3/4" thick.
- Sets for 2-1/4" doors (**T214**) are available without upcharge but may require a longer lead time.
- To order sets for doors thicker than 2-1/4", for instance 3" (**T300**), please contact us.

Finishes :

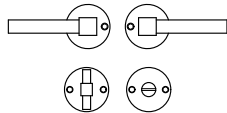

- **Split Finishes** : Use **Interior/Edge/Exterior** model for finish code.

For example, a lockset with a **NM/NM/IN** finish code has interior trim in Satin Black, a faceplate and strike in Satin Black, and exterior trim in Satin Stainless Steel. Call us for pricing and leadtime for split finish sets.

USC : US Commercial Mortise Locks

Accurate 9100 Series

STANDARD FEATURES

- **UL-Listed 3-Hour Rating**
- **Grade 1 certified to ANSI/BHMA A156.13.2005 standard**
- Standard orientation is Lever Low
- Door Handing required for set code.
- **Backset** : 2-1/2" standard for all USC Locks
2-3/4" backset optional. 3-3/4", 5", or 6" upon request.
- **Latch Bolt** : 3/4" Throw. Brass. Finished per below.
- **Dead Bolt** : 1" Throw. Brass with hardened steel insert.
- **Spacing** : 2-7/16" (61,9mm) Lever-to-Turnpiece spacing.
3-5/8" (92mm) Lever-to-Cylinder spacing.
1-1/2" (38mm) **Vertical** through-bolting at lever hub.
- **Hubs** : 8mm star lever hub | 5mm diamond turn piece hub.
- **Faceplate** : blank, 1-1/4" wide, armored, finished to match trim, blank (no logo).
- **Strike** : Curved lip T strike plate finished to match trim lip-to-center distance per door thickness.
- **Dustbox** : Standard in US10B. US32D and Brass upon request.
- **Emergency Key** : Standard with Privacy function locks.

OTHER LOCKS AVAILABLE OUT OF PROGRAM

- Upside-Down, Magnetic Latch, Roller Latch, Electrified Lock, Narrow Backset, and other lock functions available upon request.

SATIN STAINLESS STEEL

CODE : **IN**

COLLECTIONS : **ONE, INC, ARC, ECLIPSE, RIVIO, TENSE, SQUARE, BASICS**

IN is short for INOX, common European term for Stainless Steel

A form of brushed metal achieved by sanding the stainless steel in one direction using a grit belt, followed by a softening and buffing process that creates a less shiny but glossy look. This hardware finish is ideal for any interior and exterior.

SATIN BLACK (RAL 9004)

CODE : **NM**

COLLECTIONS : **ONE, TENSE, SQUARE, BASICS**

NM is short for Nero Matte

An intense dark black color with a matte look and feel, created by applying a free-flowing, dry powder (powder coating) to the stainless steel. The finish in satin black has become a huge trend worldwide and is perfect for a modern interior, giving it a chic yet robust touch.

SATIN WHITE (RAL 9003)

CODE : **BM**

COLLECTIONS : **ONE, BASICS**

BM is short for Bianca Matte

The white powder coating, applied to the stainless steel, is a strong, sophisticated finish. The finish can be described as a fresh white finish with a touch of gray. Nowadays, this finish is very popular in modern new build houses, but because of its elegance, it is also suitable for classic styles.

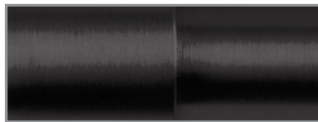

BRONZE

CODE : **BR**

COLLECTIONS : **ONE, ECLIPSE, RIVIO, TENSE, BASICS**

BR is short for Brons, the Dutch word for Bronze

A strong powder coating finish with a unique touch, due to the light sparkling metal parts of the stainless steel that are visible in the bronze coating. Even though it is a darker finish, it is richer, warmer and softer than the satin black finish.

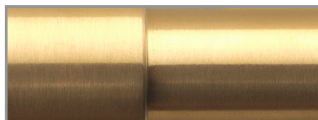

PVD SATIN BLACK

CODE : **IZ**

COLLECTIONS : **ONE, INC, ARC, ECLIPSE, RIVIO**

IZ is a combination of Inox and Zwart, the Dutch word for Black

One of FORMANI's latest innovations. The state-of-the-art PVD satin black finish is the first PVD finish with an unique, deep black finish with the original brushing of the stainless steel base surface still visible. Thanks to the extremely thin but super hard PVD coating, this hardware finish is ideal for any interior and exterior.

PVD SATIN GOLD

CODE : **IM**

COLLECTIONS : **ONE, ECLIPSE, RIVIO, BASICS**

IM is a combination of Inox and Matte finish

A beautiful matte gold finish with a hint of the brushed stainless steel still visible. The PVD layer is extremely thin, but also highly durable and scratch-resistant, resulting in a long-lasting finish ideal for any interior and exterior.
