MAKING

## ABOUT US

**Bridgeport Worldwide** brings the world's finest architectural hardware to North America. At the center of the design and construction process, we work alongside architects, builders, and manufacturers to turn visions into reality.

Beyond distribution, our expertise helps resolve technical challenges, ensure accurate specifications, and keep projects moving smoothly. From concept design through installation, we serve as the critical link between leading global manufacturers and the North American design and construction community.

We're here to **KEEP MAKERS MAKING!**
