Personal injury call

Voice Assist (0:00): Thank you for calling Liberty Personal Injury Attorneys. I'm an AI assistant. How can I help?

Caller (0:04): My wife and I were just in a car accident. We're at the hospital right now, and I have a ruptured spleen, and my wife has a broken leg.

Voice Assist (0:12): I'm so sorry to hear you're both going through this. It sounds frightening and painful. Since you're at the hospital, you're in the right place for medical care. Our firm can guide you through the legal process and explore whether you have a claim. Do you have any further questions about our legal services?

Caller (0:27): How much do you all cost?

Voice Assist (0:29): We work on a contingency fee, meaning you pay nothing up front, and we only get paid if we recover money for you. If you're ready, we can start by collecting some information so an attorney can follow up with you.

Caller (0:39): Yes, I'm ready right now.

Voice Assist (0:41): I'll take down your details so the firm can call you back and help arrange the earliest possible meeting.
