KEYPAD

BASIC / ADVANCED MANAGEMENT

Aspire®

Designed to Protect

Digilock's Aspire Keypad secures your personal belongings with a balance of distinct form and true function. Whether it's for a new installation or a retrofit, this keypad option is the perfect, simplified security solution.

Digilock®

Setting
the
Standard

Ideal for lockers and cabinets, Aspire Keypad electronic lock solutions secure your workplace with ease. With shared and assigned use capability, system-wide compatibility and minimal management, Aspire Keypad offers you a complete secured storage solution for your small to mid-sized business.

Take advantage of Digilock's patented electronic key system for programming and management, which supports up to 20 users per lock in basic management.

As your business grows, Digilock's advanced managment system lets you assign up to 250 users per lock and provides more enhanced features and audit trail capability using a tablet.

Simple, attractive and cost-effective, the Aspire Keypad consistently sets the standard for security.

Engineered for Anywhere

From inspiration to installation, we partner with our customers in many industries to ensure that their facilities offer the latest in personal security solutions, providing convenience and peace of mind.

- Deadbolt or deadlatch locking mechanism

Power

- Powered by 4 premium AA batteries
- For expected battery life, refer to Battery Life Estimate Chart

Warranty & Support

- 2-year warranty with lifetime support

Security Your Way

(1) APPEARANCE

Choose from Four, Elegant Body Styles, Brushed Nickel or Matte Black Finish, with or without Pull.

| Standard | Vertical | Horizontal Right/Left |

② FUNCTIONALITY

Choose the Use Case That's Right for You.

SHARED USE

A simple day-use solution, shared use functionality lets the user pick any available storage space and enter any 4-7 digit code to lock and the same code to unlock. When the current user is done and the storage space is unlocked and vacated, it's open and ready for the next user and code.

OR

ASSIGNED USE

If you need to assign storage for a longer period of time, assigned use allows management to program a single or multiple codes to the lock for the user or users. Each user enters the assigned 4-7 digit code to open. Then the auto-relock feature is activated requiring the user to simply shut the door.

Locking Options for Shared and Assigned Use

DUAL-USE DEADBOLT

Features a 1/2" (12.7mm) motorized deadbolt designed for either shared or assigned use functionality.

SHARED USE   ASSIGNED USE

AUTO-RELOCK DEADLATCH

Features a 1/2" (12.7mm) motorized deadlatch designed for assigned use functionality.

ASSIGNED USE ONLY

Speak to a Digilock representative for more information on the best locking option for your use.

(3) MANAGEMENT

Choose a Scalable Solution to Meet Your Business Needs.

Basic:

Digilock's original, electronic key system provides reliable and cost-effective security and flexibility.

- A single yellow Programming Key assigns up to 6 Manager Keys per system
- Assign up to 20 different users per lock
- Provides management override access
- Provides external power against battery failure
- Elapsed-time auto unlock

OR

Advanced:

Digilock's advanced management system is built on the same time-tested, security architecture but leverages the processing power of the mobile tablet and application to provide more powerful tools and easier, more detailed system management.

- A single white Data Key assigns up to 250 Manager Keys or cards per system
- User/Manager database simplifies assignment/reassignment of up to 250 users and 250 managers per lock
- Audit trail and usage data analytics reports
- Simple, visual battery-level indicator
- Real-time clock allows scheduled auto unlock
