NETWORK MANAGEMENT

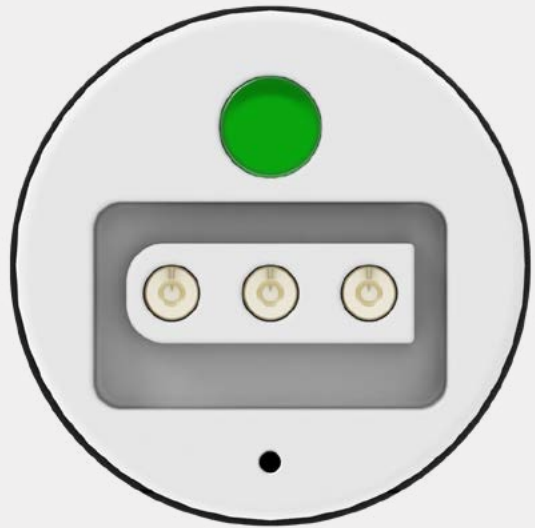

Orbit™

Seamless, Touch-Free Security

Orbit is Digilock's newest multi-directional RFID locking solution. Featuring a sleek, "barely there" user interface, Orbit is a versatile, all-in-one security system that simplifies storage security.

Digilock®

Safely Hidden in Plain Sight

Clean, streamlined and easy-to-use, Digilock's latest entry for secured personal storage is as minimalist as it is effortless. Orbit's locking mechanisms function as either shared or assigned use, giving you flexibility for both open and private work environments.

Enjoy the benefits of touch-free RFID technology for a more efficient workflow—safety with a subtle footprint.

Engineered for Anywhere

From inspiration to installation, we partner with our customers in many industries to ensure that their facilities offer the latest in personal security solutions, providing convenience and peace of mind.

- Workplace
- Healthcare
- Hospitality
- Retail
- Manufacturing
- Government

Combining quality construction with state-of-the-art security, Orbit is perfect for the most demanding environments. Easily managed and simple to use, our lock solutions modernize any space with improved flexibility and collaboration.

Key Features

RFID standards

- Compatible with 13.56 MHz RFID standards – iClass, Felica, Legic, HID SEOS, DESfire, and Mifare - ISO 14443A • ISO 14443B • ISO 15693

Product

- Wireless connectivity through BLE (Bluetooth Low Energy)
- Capacitive wake for touchless operation
- Visual and audible indicators
- Key insert available in black or white
- Multi-directional locking mechanism
- Advanced auto unlock option
- ADA compliant

Functionality

- Dual functionality – shared or assigned use
- Manage with the DigiLink cloud based network application from anywhere
- Operate by RFID credential or Mobile ID

Installation

- Inside mount
- Adjustable key insert position
- Designed for both new or retrofit installations
- Can accommodate a door thickness of up to 0.75" 1/2" (12.7 mm) motorized deadbolt or deadlatch

Power

- Up to 6 years battery life with average use
- Powered by 4 lithium 123A batteries

Support

- Onsite product updates
- Lifetime support
- 2-year warranty

Covered by one or more of US Patent Nos. 10,697,203 & 10,711,489, and other pending and issued US and foreign patents.

Customize Your Lock System

1 KEY INSERT LENGTH AND COLOR

1/2" (12.7mm) Deadbolt

- With Adjustable Depth Key Insert for 0.59" (15mm) to 0.75" (19mm)
- With Fixed Key Insert for .47" (12mm) door
- With options for white or black key insert

1/2" (12.7mm) Deadlatch

- With Adjustable Depth Key Insert for 0.59" (15mm) to 0.75" (19mm)
- With Fixed Key Insert for .47" (12mm) door
- With options for white or black key insert

Covered by one or more of US Patent Nos. 10,697,203 & 10,711,489, and other pending and issued US and foreign patents.

2 FUNCTIONALITY

Choose the Use Case That's Right for You.

SHARED USE

A simple day-use solution, shared-use functionality lets the User select any available storage space and present a valid RFID credential or Mobile ID to lock and the same RFID credential or Mobile ID to unlock an Orbit unit. When the current User is done and the storage space is vacated, Orbit is ready for the next user and RFID credential or Mobile ID.

OR

ASSIGNED USE

If you need to assign storage for a longer period of time, assigned use lets Management program single or multiple RFID credentials or Mobile IDs to the lock for the User or Users. Each User presents the assigned RFID credential or Mobile ID to unlock an Orbit unit. Then the auto-relock feature is activated requiring the User to simply shut the door.

Locking Options for Shared and Assigned Use

DUAL-USE DEADBOLT

AUTO-RELOCK DEADLATCH
