

# Hazard control assessment

## Helping you spot risks before they become problems.

At EMC, we help you pinpoint the hazards that could have the biggest impact on your business—and offer practical solutions to help you control them.

Our risk control experts can perform a thorough on-site assessment tailored to your operations. The result? A clearer path to a safer, more efficient workplace.

### Common risk areas

- Commercial auto and fleet
- Material handling and ergonomics
- Slips, trips, and falls

### How we identify hazards

- Analyze your loss history
- Compare industry trends
- Conduct a detailed on-site inspection
- Review any concerns you've already identified

### Things we consider

- How complex your operations are
- The level of risk at your site
- Your organization's size and number of locations

### Why it matters

A hazard control assessment can help you\*:

- Improve product quality and employee morale
- Boost productivity
- Lower the overall cost of doing business
- Reduce risks—and potentially your premium
