Re: Letter of compliance

Product: Foodservice items and perfluoroalkyl and polyfluoroalkyl substances (PFAS)

Dear Valued Customer:

In response to your request for information regarding the use of perfluoroalkyl and polyfluoroalkyl substances (PFAS) in our products, please be assured that, to the best of our knowledge, the foodservice products (food bags, PVC film, gloves, aluminum foil, deli/scale sheets, and reclosable bags) that we supply to you do not contain intentionally added PFAS.

No PFAS ingredient is used in the manufacture or formulation of the listed products. We do not, however, specifically test the products for the presence of PFAS.

Thank you for being an Inteplast Group customer.

Sincerely,

Joe Wang  
Global Sourcing Manager  
Inteplast Group
