

TackMaster Stretch Film

Inteplast's TackMaster® Film, one of the films in our Specialty Film Series, is engineered to utilize the newest tackifier to create a superior cling layer for securing film tails in cold or dusty wrapping environments.

Features & Benefits

- High performance films for all stretch wrapping machines and hand applications in tough conditions
- Extremely aggressive inside cling layer package on this one-sided cling film
- For all load configurations
- Pre-stretch levels up to 300% depending on gauge and equipment capabilities
- UVI can be added to machine films, if required, for our normal upcharge and minimum order

TackMaster Machine Film
