

## CASE STUDY

### Florida Atlantic University Students Report Better Learning & Confidence with JoVE

## BACKGROUND

Professor Paula Waziry used JoVE's video and assessment platform in her undergraduate Anatomy & Physiology and Cell Biology courses at Florida Atlantic University.

*I've worked with JoVE reps to select and integrate weekly topic-specific videos that... allowed fast review of the topics presented in class, and generated practice questions based on students' needs, emphasizing reasoning, retention and spaced repetition.*

Prof. Paula Waziry, Florida Atlantic University

**92%**

Students reported that JoVE videos made core course concepts easier to understand.

**89%**

Students found JoVE more effective than text-based materials for understanding complex concepts.

**88%**

Students reported better confidence after using JoVE videos.

## STUDENT PERSPECTIVES

*It's like having two professors teach you.*

*JoVE is an amazing resource. I especially liked watching the videos before I came to class. The quizzes were great and so were the subtitles.*

*The greatest benefit is the amount of retained knowledge you will gain, exponentially better than memorizing.*

*You can actually remember and study in a fun way.*
