PRODUCT OVERVIEW

Install Bay Ultra Slim Series CL-rated HDMI® Cables with Ethernet have the greatest flexibility possible for ease of rack prep. With incredible data transfer speeds, ARC (Audio Return Channel), and ethernet support, Install Bay Ultra Slim Series HDMI® cables let you plug into a better A/V experience. Supporting resolutions up to 4K/60, HDR, at 18Gbps, the Install Bay Ultra Slim Series HDMI® cables are ready for 4K, UHD Blu-ray, HD/4K satellite, HD cable, 4K gaming and HD internet. New 24K gold plated locking connectors help secure the cable without risk of damaging connected equipment. Multiple layers of shielding prevent electromagnetic interference to maximize noise isolation as well as protecting the other components from HDMI® high speed emanations .

- 24K gold plated locking connectors
- ARC (Audio Return Channel) support
- Audio Return Channel (ARC)
