### PRODUCT OVERVIEW

The new Velox Passive HDMI Cable is available in various lengths, and provides custom integrators with reliable digital transmission technology for almost any project size. Through a new proprietary design, Metra AV has incorporated In-Visions Technology Quiksilver Transmission Line™ high performance Passive HDMI Cable for integrators wanting the best for their clients. Supporting 24Gbps, 4K/60, 4:4:4 and HDR transmission for up to 10 meters, and 48 Gbps, 4K/60 4:4:4 and HDR transmission up to 2M.

- Supports up to 48Gbps, 4K/60 4:4:4 and HDR
- Removes potential future speed cap
- Advanced features in metallurgy, topology, dielectric and shielding
- New microwave RF design allows for up to 4dB less insertion loss
- Highest bandwidth performance of any passive cable
- 3mm Shield Strip-back - Helps to reduce 6G jitter
- 100% Copper Shielding - reduces EMI
- Bypass Ground - provides better return loss
- Conductors direct solder to connector
- Audio Return Channel (eARC and ARC)
- Grip-Lox™ Terminal

\* 1 & 2 meter lengths support 48Gbps. All other lengths support 24Gbps
