- EHV-HDG2-100** - 100 meter

US/EU/UK AC to USB Power Adaptors

All are 5V 1A output and UL or CE listed

PRODUCT OVERVIEW

Velox's ultra-premium construction and high-tech engineering results in clean, reliable performance for the demands of higher bandwidth 4K content in long runs. These ultra high speed fiber HDMI[®] cables with Ethernet are engineered with an expected bandwidth capability up to 48Gbps for 8K content.

- Expected capability of 48Gbps bandwidth for uncompressed ultra high speed video performance
- Expected capability to support up to 8K resolutions, designed at 12Gbps per channel x 4 channels
- Ultra high speed CL3 rated
- Includes ethernet
- Supports all color subsampling
- Supports Dynamic HDR
- Backward compatible with HDMI[®] 2.0, HDCP 2.2 and all earlier versions
- 24K gold plated, corrosion-resistant contact connectors
- Multi-layer shielding to prevent electromagnetic interference, maximizing noise isolation and protecting components from HDMI[®] ultra low speed emanations
- Input impedance of 100 ohms
- CL-listed for in-wall installations and powered with included USB cables and power supplies
- Lifetime warranty
