Sonos Pro

Everything your client's
business needs to sound great
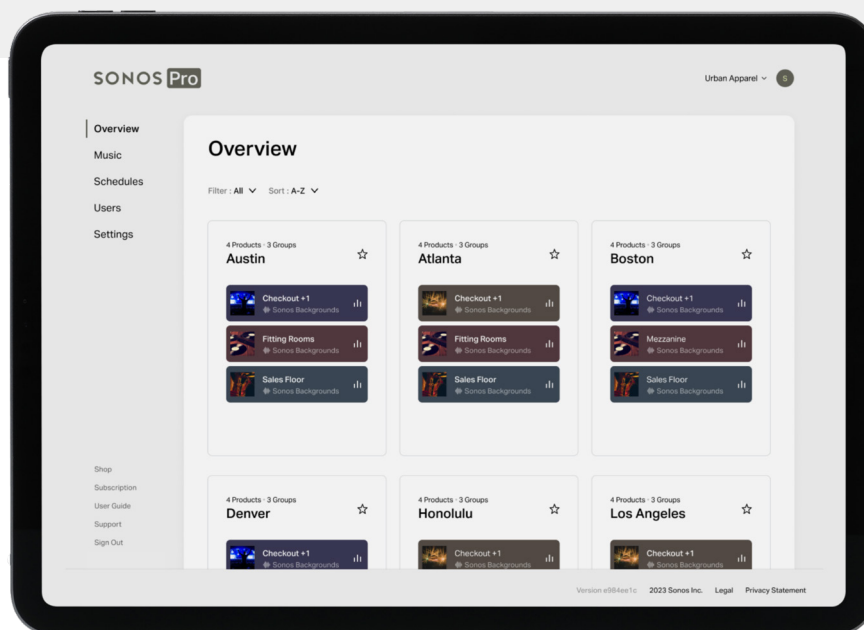

SONOS

Remote monitoring and management

Oversee the sound experience from anywhere. Whether your client has one location or one on every block, Sonos Pro has them covered.

Music and control that works for your client

Set the right tone for your client's brand with commercially licensed music they can approve and schedule. Share and restrict access to content and features as needed.

Priority support from the experts

Priority support from Sonos Pro experts. Quickly resolve problems with on-demand resources and help from our specialists.
